

Subrecipient Monitoring Guide

The purpose of this subrecipient monitoring guide is to accomplish the following:

1. Ensure state agencies develop sufficient monitoring plans and methods to have proper oversight of subrecipient entities receiving pass-through awards.
2. Define types of subrecipient monitoring.
3. Assist state agency personnel responsible for monitoring awards in selecting the proper monitoring for pass-through awards.
4. Provide tools and suggestions that could be included by the state agency in the monitoring process.

Note: State agencies may add additional processes and references to monitoring forms and tools to this guide to meet agency and grant specific monitoring needs.

Uniform Guidance Requirements Related to Monitoring (2 CFR Chapter I, Chapter II, Part 200 et al.):

200.331 d.1-3

(d) Monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward; and that subaward performance goals are achieved. Pass-through entity monitoring of the subrecipient must include:

(1) Reviewing financial and performance reports required by the pass-through entity.

(2) Following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity detected through audits, on-site reviews, and other means.

(3) Issuing a management decision for audit findings pertaining to the Federal award provided to the subrecipient from the pass-through entity as required by § 200.521 Management decision.

200.331 e.1-3

(e) Depending upon the pass-through entity's assessment of risk posed by the subrecipient (as described in paragraph (b) of this section), the following monitoring tools may be useful for the pass-through entity to ensure proper accountability and compliance with program requirements and achievement of performance goals:

(1) Providing subrecipients with training and technical assistance on program-related matters; and

(2) Performing on-site reviews of the subrecipient's program operations;

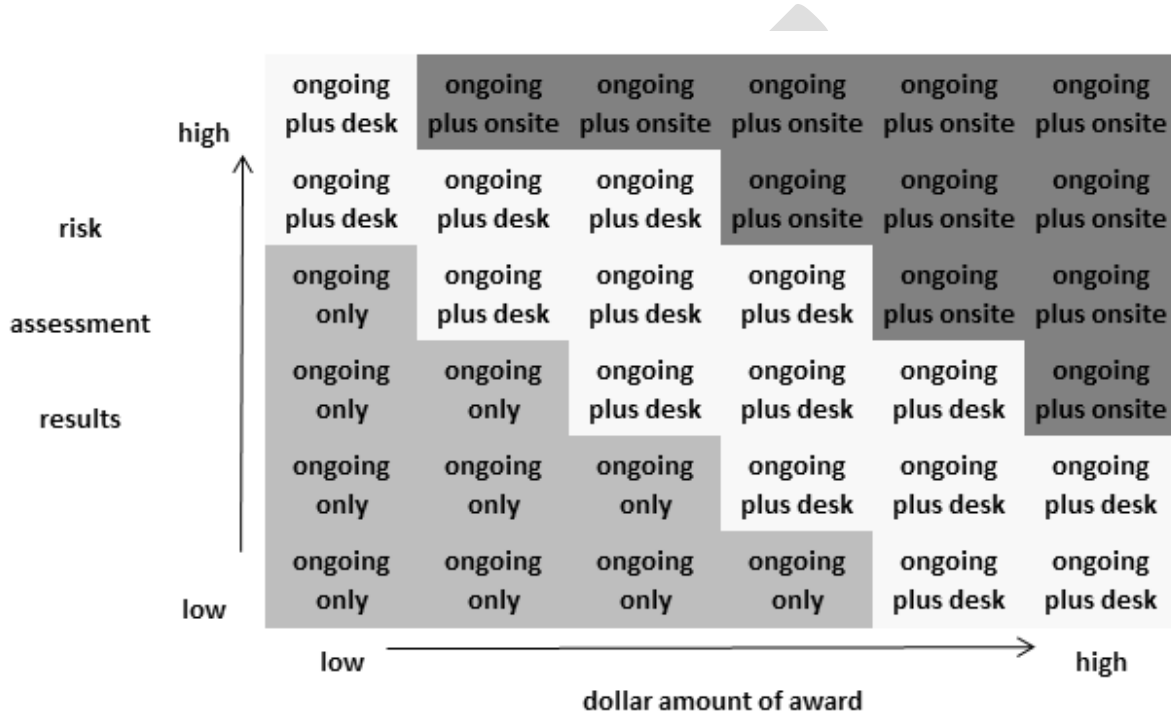

(3) Arranging for agreed-upon-procedures engagements as described in § 200.425 Audit services.

1. Each state agency should develop a subrecipient monitoring plan that addresses the following:
 - a. Identify state agency staff responsible to carry out the monitoring plan and monitoring tasks.
 - i. Determine how many resources (staff time) are available to complete monitoring within your agency.
 - ii. Determine how much staff time each type of monitoring will take to complete.
 - iii. Focus resources on the higher areas of risk. For example, if your agency has the resources to complete 5 onsite visits per year and 10 desk reviews, then the awards the agency sees as the highest risk should be the awards reviewed accordingly.
 - iv. Develop a plan to complete the scheduled reviews.
 - v. Develop a method to track the progress to ensure all scheduled desk and onsite reviews are completed.
 - b. Determine the frequency of monitoring.
 - c. Consider thresholds for risk and dollar amount.

- i. Risk level should be determined by the state agency on a pre-award risk assessment form.
- ii. Dollar amount classifications, such as, high, medium, or low, are encouraged to be established by each state agency. Methods for determining levels should be described.
- iii. The type of monitoring utilized should depend on risk, but also take into consideration the dollar amount and past performance or experience with the entity, if applicable, and agency resources available to perform reviews.

Monitoring types have been identified as Ongoing, Desk Review (Offsite), and Onsite. Descriptions and details about each type can be found on the following pages.

The chart is an illustration to reflect how the monitoring plan should be developed weighing risk and dollar amount:

****Ongoing monitoring will occur throughout the period of performance for all subrecipient awards, however, desk reviews and onsite reviews should be added on awards with medium or high levels of risk or dollar amount, or when the need is identified with ongoing monitoring.**
