December 19, 2014

Dear Fire Chief,

To honor and pay tribute to the men and women serving as firefighters in our state, the South Dakota Division of Motor Vehicles is excited to announce the availability of the new 2015 Firefighter specialty plate. The new plate is available beginning January 1, 2015.

The eligibility requirements and fees are as follows:

- Must be a resident of South Dakota
- Must be currently certified and recognized by the State Fire Marshal's office
- Must pay the vehicle's annual registration renewal fees in addition to a \$10 fee charged for the initial issuance of the Firefighter plate.

The new plate can be obtained via two methods: One, by visiting the Division of Motor Vehicles new customer portal MySDCars.sd.gov beginning January 2, 2015. This newly designed secured website offers our customers the ability to order the Firefighter plate online from the comfort of their home. Applicants for the plate must be within their normal annual registration period in order to apply for the Firefighter plate online. The second method of obtaining the new plate is by visiting your local county treasurer's office to request the new Firefighter plate. Those renewing their Firefighter plate will keep the same number.

If you have any questions regarding the new Firefighter plate application process, please contact the SD Division of Motor Vehicles at 605-773-3541. A copy of the new 2015 Fire Fighter plate is provided. Please share this information with the members of your fire department.

Sincerely,

Peggy Laurenz
Director
