ActionTraining
SYSTEMS

Dear SD Fire Instructors, Fire Chiefs & Firefighters,

SD Redbook, in association with the Society of Fire Instructors and the Firefighter's Association, are hosting a new web-based platform to deliver fire training videos that can be used by instructors statewide!

We trust that you will find these NFPA standards-based training videos to be a worthwhile resource. Through both theory and demonstration of your firefighter's job-related skills, these videos are intended to improve your personnel's overall comprehension.

In a continuing effort to support our members, we have chosen to provide these Action Training Systems online streaming videos. Action Training has built a reputation for creating quality training videos for the fire service industry for 27 years and is still going strong. You can now stream select ATS videos directly to your firehouse for a nominal fee!

- **What is the cost?** The license fees are only \$20 per pass code per year!
- **Which videos are accessible with the subscription?** See course list at the end of this letter.
- **How do you learn more about this program?** Please give us a call at (605) 351-4185, or look for Action Training Systems on the SD Redbook Fund website

SOUTH DAKOTA
REDBOOK

Essentials of Firefighting – Expanded Package

These videos were chosen based off of the requirements for NFPA 1001 using IFSTA's Essentials of Firefighting, 6th Edition (Fire Department Operations version). However, you can use these videos with any correlation guide if another textbook is preferred. Use to supplement initial or in-service training. Subscription comes with access to streaming videos and customizable instructor's PowerPoints.

Firefighter I

- Firefighter Safety: Part 1
- Firefighter Safety: Part 2
- Fire Behavior
- SCBA 1: Introduction
