Contractor or Subrecipient Relationship Determination Checklist

(To satisfy requirement of section 200.330 in OMB 2 CFR Chapter I, Chapter II, Part 200 et al Uniform Guidance)

In addition to grant specific requirements, all State agencies who receive Federal grants are required to comply with 2 CFR Chapter I, Chapter II, Part 200, et al. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.								
This document is intended to be used as a tool to help State agencies comply with 2 CFR 200.330 in making case by case subrecipient or contactor determinations for ALL State agency agreements or contracts involved in the disbursement of Federal program funds.								
The checklist will also be applied to non-federally funded agreements to be able to determine recipient or contractor relationship. For the purposes of this document, recipient as it relates to non-federal funds, will be an entity who directly receives an award from a state agency to carry out an activity under a state program or non-federal/private program. A subrecipient determination on a non-federal funded agreement would make the entity a recipient.								
Recipient: A non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out	from a pass-through entity to carry out all or a portion of a prop				property of s	<u>ontract:</u> A legal instrument by which a non-Federal entity purchases operty of services needed to carry out the project of program under a deral Award. (2 CFR 200.22)		
an activity under a Federal program. The term recipient does not include subrecipients. (2 CFR 200.86)						An entity that receives a contract (2 CFR 200.22)		
For the purpose of this checklist the State agency is the Recipient.	Pass-through entity: A non-Federal entity that provides a subaward to a subrecipient to carry our part of the Federal program. For the purposes of this checklist the State agency is the pass-through entity Entity: For the purposes of this checklist, Entity includes any busines government, organization, individual, etc. in which a State agency has contract or agreement with.							
DIRECTIONS: Please complete the following checklist. Each section contains characteristics of subrecipients and contractors. Mark the box under "Yes" or "No" next to the question under each characteristic in the sections below. Mark the "Subrecipient" or "Contractor" box to the best of your determination in the blue box at the bottom of each section. One subrecipient check does not necessarily make the entity a subrecipient nor does one contractor check make it a contractor.
