

## Summary of South Dakota K12 School Enrollment Data

- Data reflects student enrollments during the annual fall census for public and non-public schools (private, tribal, and Bureau of Indian Education).
- Enrollments in K12 schools has risen to 150,526 during the 2018-19 school year after a recent low of 136,767 in 2006-07; growth is largely seen in the early grades and the districts in and around the Sioux Falls region.
- Based on past trends and current information, enrollments are projected to increase through about 2025 and then level off.
