South Dakota Secretary of State

Monae L. Johnson
Secretary of State

Thomas J. Deadrick
Deputy Secretary of State

Rachel Soulek gave an overview of HAVA Grant Board. In 2014, former Secretary of State Jason Gant added a grant program in the HAVA state plan for counties to apply for to use for HAVA requirements. In 2015, former Secretary of State Shantel Krebs along with the State Board of Election members appointed the first HAVA Grant Board and put parameters in place along with creating the applications that counties will use to apply for the grant fund. The members must consist of the Senior Elections Coordinator from the Secretary of States office who will serve as the Chair, four county auditors (two Democrats and two Republicans), member from the Department of Tribal Relations and a member from the disability community. The HAVA Grant Board will make recommendations to the Secretary of State pertaining to the local grant program.

Rachel Soulek gave an update on the Help America Vote Act \$3 million Security Grant.

Review of HAVA Grant Applications

Rachel Soulek explained that counties have to be at a zero balance to be able to apply for this grant.

Rachel Soulek explained that counties have to be submit receipts before they are reimbursed. The amounts listed on the grants are estimates of the costs they expect to incur. Many counties are able to look back at past elections for estimates but there are many counties that have new auditors that have not been through the process.

The HAVA Grant Board recommended voting on the applications for the regular grant and the in-person satellite voting center grants separately.

Review of In-Person Satellite Voting Center Pre-Approval Applications

Rachel Soulek explained the process of the In-Person Satellite Voting Centers. Counties do not have to have all of their county funds spent down to apply for this grant. There are parameters that a county must have to be eligible to have an in-person satellite site. This grant's goal is making voting more available to people in areas where travel is a burden. There is no limit on the amount they can request but they still have to meet the requirements and follow state reimbursement rates.
