

**SOUTH DAKOTA BOARD OF TECHNICAL EDUCATION
COST OF ATTENDANCE: FY2023**

PURPOSE OF REPORT

The purpose of this report is to provide an estimated total cost of attendance by program and by award level at each technical college.

Three types of costs are included in this report:

1. Tuition
2. State Fees
3. Local Fees

The South Dakota Board of Technical Education approves tuition and state fee rates. Tuition and state fee rates are the same across all four technical colleges.

In addition to tuition and state fees, students will also pay local fees. Local fees, unlike tuition and state fees, are approved by local governing boards.

METHODOLOGY

The estimated costs reflected in this report are based on a student:

1. Enrolling full-time.
2. Following the exact sequence of a student's program of study and completing the minimum number of credits.
3. Satisfactory completion of all credits.

Additionally, estimated costs are based on the minimum cost of attendance.

LIMITATIONS

1. The number of credits enrolled and completed by semester will affect overall cost of attendance. Various local fees are assessed on a per-semester basis. For example, students enrolling part-time will experience higher costs due to enrolling in additional semesters.
2. Tuition, state fee, and local fee amounts are held constant based on the respective fiscal year. For example, an Associate of Applied Science (AAS) degree typically takes two academic years to complete. Any changes to costs from Year 1 to Year 2 are not factored.
3. Living expenses (housing, meals, transportation, childcare, etc.) are not reflected in this report. These expenses can be, and often are, a substantial component of a student's experience.
4. The estimated costs in this report are based on the minimum cost of attendance. For example, if a program is offered through multiple delivery types (In-Person; Online; Blended), and an institution assesses an additional "Online/Blended Fee," the delivery type with the lowest cost is used.
5. The estimated costs in this report are not guaranteed and are based on calculations. Prospective and current students should reach out to institutional financial aid offices for additional, accurate, and adjusted cost information.

**SOUTH DAKOTA BOARD OF TECHNICAL EDUCATION
COST OF ATTENDANCE: FY2023**

CATEGORY	TYPE	DESCRIPTION
Tuition	Tuition	Tuition supports all aspects of education and operations (i.e. faculty, classroom materials, utilities, etc.).
State Fee	Facility Fee	Facility fees are used for the technical colleges' payment on debt service coverage to pay down debt of facilities constructed through bond proceeds. The technical college payment covers 73% of the annual payment and the State of South Dakota contributes the remaining 27%.
State Fee	Maintenance and Repair (M&R)	M&R dollars are for the upkeep of land and facilities on the campuses. Examples include parking lots, heating systems, flooring and lights. Each technical college matches the fees collected from students with other institutional dollars. In FY21, the former Technology Fee (\$1/credit hour) was collapsed into the existing M&R Fee.
Local Fee	Institutional Fee	Costs of facilities, equipment, and educational technology.
Local Fee	Program Fees	Costs associated with a specific academic program. May also be known as "Department Fees."
Local Fee	Online/Blended Fees	Costs associated with an online or blended course.
Local Fee	Books and Supplies	Costs associated with the purchasing of required books, tools, uniforms, and misc. supplies.
Local Fee	Laptop and Software	Costs associated with the purchasing of a laptop and software.
Local Fee	One-Time Fees	Fees that are one-time in nature. This may include, but is not limited to fees associated with the entrance and/or exit from the program. Examples: matriculation, graduation, immunizations, insurance, background check, drug screen, licensure exams a student would reasonably take upon completion.

**SOUTH DAKOTA BOARD OF TECHNICAL EDUCATION
COST OF ATTENDANCE: FY2023**

INSTITUTIONAL SUMMARY BY AWARD LEVEL

This summary displays the cost of attendance for associate of applied science (AAS) programs.
AAS programs require at least 60 credit hours.

SYSTEM AVERAGE	\$8,511	\$2,883	\$10,473	\$21,867

NOTE:

LATC's Professional Fixed Wing Pilot AAS program, within the Transportation, Distribution & Logistics Career Cluster, reflects an estimated cost of \$47,088 in fees associated with flight time and FAA testing. These costs are not typical for AAS programs at LATC. If the Professional Fixed Wing Pilot AAS program was removed, LATC's institutional averages would be: Total Local Fee Cost: \$8,711; Total Tuition and State/Local Fee Cost: \$20,682.

**SOUTH DAKOTA BOARD OF TECHNICAL EDUCATION
COST OF ATTENDANCE: FY2023**

INSTITUTIONAL SUMMARY BY AWARD LEVEL

This summary displays the cost of attendance for diploma programs.
Diploma programs require at least 30 but less than 60-semester credit hours
