No members of the Commission disclosed any conflicts of interest, and no waivers were requested.

Odenbach opened the floor to public comment.

No one from the public addressed the Commission or offered input.

Secretary Jundt presented to the Secretary's Report to the Commission. He reported that the federal appropriations bill was passed in December of 2022. This is critical in helping the Department of Transportation (the "Department") plan for activities.

He also informed them that the Department presented briefings to the South Dakota House and Senate Transportation Committees as well as the Joint Appropriations Committee. There is a fair amount of discussion in relation to airport funding this year. There are two bills that aim at providing general funds to airports. SB148 will provide \$15M to RC Airport and SB158 to provide \$20M to airports to use on major infrastructure projects in SD. These bills are scheduled to be heard before the Joint Committee on Appropriations within the next few weeks.

Tom Koch, Office of Air, Rail, & Transit, presented to the Commission for their consideration of additional funds for the 2023 – 2025 South Dakota Airport Directory in the amount of \$480.56 which is the remaining balance. At the September 15, 2022 Commission meeting, the Commission approved the lowest quote of \$12,735.91. The additional cost is due to the design time that was not included in the print specifications when the quote was requested.

A MOTION WAS MADE by Rieber and seconded by Johnson to approve the additional \$480.56 for the remaining balance of the 2023-2025 South Dakota Airport Directory publication. All present voted aye by roll call vote. The motion carried.

Nancy Hiller, Office of Air, Rail, & Transit, presented to the Commission for their consideration a request to amend the state share on Airport Improvement Program (AIP) grant project #3-46-0050-53-2019 at the Sioux Falls Regional Airport in the amount of \$5,812.86. The federal grant amount was increased to reflect final as-built measured quantities for construction. The state share must increase accordingly.

	Federal (90%)	State (5%)
Final project	\$8,020,815.00	\$445,600.86
Original grant	\$7,773,322.00	\$439,788.00
