Karla Engle, Office of Legal Counsel, announced a public hearing on proposed amendments to Administrative Rule of South Dakota (ARSD) 70:01:02:01 – Minnehaha County speed zone rule.

Engle described the procedural steps taken so far in the rule adoption process. Engle then discussed the purpose and effect of the proposed rule changes. The proposed rule amendments change speed limits on State Trunk Highway 115 north of Sioux Falls and on Highway 38 in and around Hartford in Minnehaha County. Specifically, one rule amendment will establish a 45 miles per hour (mph) speed limit on Highway 115 north of the I-90 ramp in Minnehaha County. Another amendment will change a 50 mph speed limit on Highway 38 in Hartford to forty-five mph and add a fifty-five mph speed limit on Highway 38 extending for two miles southeasterly from Hartford. The proposed speed zone rule changes will also update highway references and eliminate speed limit provisions that are no longer needed because of highway jurisdictional transfers. The reasons for amending the speed zone rules are to enhance safety, add clarity, and repeal speed limits for highways that are not under the department's jurisdiction.

Engle reported there was one timely written comment received on October 21, 2026 from City Administrator Teresa Sidel and Mayor Arden Jones of the City of Hartford. They expressed their support for the speed limit changes on Highway 38 proposed by the department. They stated the lower speed limits were justified by citizen complaints about the current speed limits, frequent near misses, commercial and residential development in the area, and enhanced safety of motorists, bicyclists, and pedestrians.

Roby asked for public testimony in favor of or opposed to the Minnehaha County rule amendments. The mayor of Hartford, Arden Jones, testified in support of the proposed speed limit changes to Highway 38. He pointed to increased commercial and residential development as justification for the speed limit changes. State Senator Joy Hohn testified about her support for the speed limit changes on Highway 38 in and around Hartford. She noted the many calls she has fielded about near misses and observed that commercial and residential development make the changes necessary. Paul Zimmer of Hartford asked for clarification on the changes to the current 50 miles per hour speed limit on Highway 38, as he understood the speed limit would be changed to 35 miles per hour. Engle responded that under the rule proposed by the department for Highway 38, the speed limit in the current 50 miles per hour segment will be changed to 45 miles per hour, not 35 miles per hour. She added that the department is aware of future development plans in Hartford and will continue to monitor the appropriateness of speed limits in and around this community. State Representative Tesa Schwans testified that she fully supports the Highway 38 rule changes proposed by the department for the reasons offered in the testimony by others.

A MOTION WAS MADE by Nelson and seconded by Rosenboom to approve the proposed amendments to ARSD 70:01:02:01 (Minnehaha County speed zone rule). All present voted aye by roll call vote. The motion carried.

RESOLUTION #2025 – 10.1 was adopted.

All present voted aye by roll call vote. The motion carried.

Executive session began at 9:16 a.m.

***

Executive session ended at 10:02 a.m.

No members of the public addressed the Commission or offered any input.

Secretary Jundt presented the following items to the Commission in his Secretary's Report:

- He shared that there has been no change with the surface transportation reauthorization bill nor the appropriations bills. Both legislations were extended to December 11, 2026. The Department of Transportation (the "Department") is waiting to see what Congress does after the midterm elections next Tuesday.
- The Department was notified that the application we submitted on behalf of the City of Rapid City for the Skyline Drive Scenic Byway Safety Improvements & Cultural Preservation, was awarded a grant via the FY 2023 and 2024 National Scenic Byways Program (NSBP). The grant is for $7,125,000 with the overall project estimated to cost approximately $15 million. The City of Rapid City will pay the match and any additional funds needed above the federal amount. The Department will work with the city as the Department administers the grant. The obligation deadline is September 30, 2027 which makes time critical to get it started and work through all the certifications.
- The Platte-Winner Bridge Groundbreaking was October 22, 2026. It was a wonderful event celebrating the official start of construction for the Platte-Winner Bridge. It was an honor to have FHWA Administrator McMaster, Governor Rhoden, Senators Thune and Rounds, and Rep. Johnson join us; along with members of the Transportation Commission (Vallery and Vehle), and area city (Platte, Winner and Gregory) /chamber staff members. The bands (and student athletes) from Platte - Geddes High School and Winner Area High School made the day extra special. He thanked the Department staff who worked diligently for years to bring us to this groundbreaking stating they should all be very proud of the role they played (or will play) in this monumental project. The bridge will serve South Dakotans for generations to come.
- The Department is working to hold a ribbon cutting ceremony in the next few weeks for the SD1889/ Euclid Project.
