To whom it may concern,

Since the original board packet was delivered, several applicants have revised their applications, requested action on their application be deferred until the May 17, 2022, Board of Water and Natural Resources meeting, or requested that their application be withdrawn. Enclosed is a supplemental board packet which reflects those changes.

## Sanitary/Storm Sewer Facilities Funding Application

Clean Water State Revolving Fund Program (CWSRF)

Project Title: Aurora Wastewater System Improvements Phase II

Description:

The City of Aurora is proposing to begin construction of Phase 2. Phase 2 Collection System Improvements consists of replacement of the sanitary sewer pipe, with new PVC pipe, designated for open-cut replacement. Each sanitary sewer service will be replaced to the right-of-way, and the manholes will be replaced with new manholes. There will be approximately 1,430 LF of 8-inch, 3,410 LF of 15-inch and 1,400 LF of 18-inch PVC pipe installed replacing various sizes of VCP pipe in poor condition. In addition, approximately 41 sewer services, 32 manholes and 3 railroad casing pipe crossings will be replaced.

---

The Applicant Certifies That:

I declare and affirm under the penalties of perjury that this application has been examined by me and, to the best of my knowledge and belief, is in all things true and correct.

Project Title: Bryant Water System Improvements

**Description:**

The City of Bryant is experiencing issues with their aging infrastructure, as well as experiencing population growth, and requires upgrades to their water system. Over half the current distribution system consists of cast iron pipes (CIP) from the 1900's that are brittle and cracking, contributing to high water loss.

The City proposes phase 1A and 1B to replace CIP, replace service lines, install new fire hydrants, replace valves, street repairs, seeding, fertilizing and mulching.

The City requests funding for phase 1A: Main Avenue from Railway Street to William Street, as well as on Prospect Street from 2nd Ave to 7th Ave.

Banner Associates was contracted to provide the facility plan including cost estimates. Current Monthly rate is \$56.52 for 5,000 gallons.

**The Applicant Certifies That:**

I declare and affirm under the penalties of perjury that this application has been examined by me and, to the best of my knowledge and belief, is in all things true and correct.

Project Title: Bryant Wastewater System Improvements

Description:

The current system has vitrified clay pipe (VCP) original to 1919 which has reached the end of its useful life. Records indicate problems, such as cracks and breaks, within in the VCP pipe which are contributing to inflow and infiltration in the wastewater system. Due to population growth, the City also requires upgrades to their wastewater system to meet increased wastewater flows.

The City proposes phase 1A and 1B: to replace or line mains, replace manholes, install flow meters, cleaning and televising, install storm sewer plus intakes, street repairs and seeding, fertilizing & mulching. All service lines within the project footprint will be replaced or lined to the right-of-way.

The City is requesting funding for Phase 1A: improvements on Main Avenue from Railway Street to William Street, as well as on Prospect Street from 2nd Ave to 7th Ave.

Banner Associates was contracted to provide the facility plan including cost estimates. Current monthly rates are \$30 flat rate

---

April 4, 2022

Andrew Bruels  
Dept. of Agriculture & Natural Resources  
Joe Foss Building  
523 East Capitol  
Pierre, SD 57501

**RE: Drinking Water Funding Application Amendment Request  
Town of Corona**

Dear Mr. Bruels:

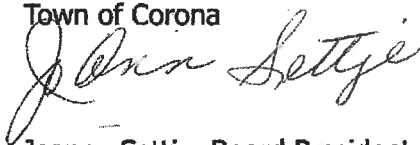

After further consideration of our proposed project and funding availability, the Town of Corona is respectfully requesting to amend the Drinking Water Funding Application that was submitted on December 31, 2021. While the needs for the future infrastructure replacement project as identified in the Facilities Plan remain, those proposed projects will be delayed to facilitate other more urgent priorities until a future date at which time a revised funding application will be submitted.

The proposed amendment would remove Water Distribution Alternative 3 – “Replace Existing Water Mains” from the application. The new funding application total would be for \$391,000, which is based on the estimated cost for Water Distribution Alternate 2 – “Install Water Meters”.

Thank you once again for your assistance and consideration of our request.

Sincerely,

Town of Corona

Joann Settje, Board President

*Re: LPSD W & NW Sewer Expansion Funding Application*

Dear Mr. Perkovich,

The Lake Poinsett Sanitary District (LPSD) would like to defer their previously sent funding application regarding the West and Northwest Lake Drive Sanitary Sewer Expansion Project. This deferral is based on project size limitations to be eligible for ARPA funds and will allow the LPSD time to reprioritize their projects and revise their funding application. Thank you for your attention to this request and if there are any questions or further information is required please let the LPSD know.

Sincerely,

  
Dennis Micko, President  
Lake Poinsett Sanitary District

Project Title: Lake Preston Phase 2 Utility Improvements

**Description:**

The City of Lake Preston is proposing to perform replacement and rehabilitation of sanitary sewer collection piping and manholes that need immediate attention due to high infiltration, increased maintenance and failing structural components of manholes. The scope of work includes approximately 10 city blocks. The City of Lake Preston is currently in construction on the project identified as Phase 1 in the 2019 Facility Plan. The proposed improvement listed in this application is Phase 2A of the amended Facility Plan which will address the south and east portions of the sanitary sewer system. As part of the utility replacement efforts, the City of Lake Preston is also proposing to replace and improve existing storm sewer located in areas of sanitary improvements. The storm sewer scope of work includes replacement, addition of inlets to provide adequate collection, and up-sizing of storm sewer mains to provide reliable conveyance and increase capacity.

**The Applicant Certifies That:**

I declare and affirm under the penalties of perjury that this application has been examined by me and, to the best of my knowledge and belief, is in all things true and correct.

Project Title: Mitchell Livesay Lane Wastewater and Storm Sewer

**Description:**

The City of Mitchell proposes to extend wastewater and storm sewer infrastructure into CJM's Second Addition, a planned residential development located just north of Lake Mitchell. The development is accessed by Livesay Lane, along which much of the construction will occur. Approximately 3,250 feet of sewer line will be installed, along with about 2,330 feet of storm sewer piping of various diameter.

The Applicant Certifies That:

I declare and affirm under the penalties of perjury that this application has been examined by me and, to the best of my knowledge and belief, is in all things true and correct.

Re: Defer Action: CWSRF C461009-04 Lift Station  
Re: Defer Action: DWSRF C461009-03 Water Treatment Plant

Dear Mr. Bruels:

North Sioux City requests that the Department defer action on the City's pending Funding Applications until the Department's May meeting. The applications were submitted prior to the January 1, 2022, deadline and are slated to be considered at the April 12-13, 2022, Board of Water and Natural Resources meeting. The City is concerned that the cost of the materials associated with the projects has increased significantly, and the City is working with the Stockwell Engineering to revise the cost estimates.

If you have any questions, please contact Eric Christensen, City Administrator, at (605) 232-4276.

Sincerely,

Eric Christensen, MBA  
City Administrator

**Project Title:** Utility Improvements within water, sewer and drainage systems

**Description:**

The City is proposing multiple projects to include extension of sewer mains to serve existing and future businesses along Highway 44. The community needs housing thus the proposed project for a lift station to serve the Kuiper Addition. The proposed lift station will allow for the development of approximately 16 residential lots while also providing sanitary sewer for future development. Dry dredging of Lake Platte is also proposed, possibly as a 319 project.

Please refer to the attached engineering summaries which provide more project details to include cost estimate and maps.

**The Applicant Certifies That:**

**Project Title:** WDRWS Engineering Study and Preliminary Design

**Description:**

The West Dakota Regional Water System is proposing to submit an application to secure funding from the Board of Water and Natural Resources (BWNR) to hire an engineering firm to complete a facilities plan and preliminary design for a drinking water expansion project from the Missouri River to Western South Dakota. The application will request funding assistance for an amount up to \$8,000,000. WDRWS was recently organized in September 2021 for the purpose of providing a secondary water source to Western South Dakota and to assist with regionalization efforts in the Black Hills region.

There are currently no customers and therefore no rates in place at this time.

**The Applicant Certifies That:**

I declare and affirm under the penalties of perjury that this application has been examined by me and, to the best of my knowledge and belief, is in all things true and correct.

**To:** Bruels, Andrew <Andrew.Bruels@state.sd.us>  
**Cc:** whitesd@heartlandpower.org  
**Subject:** [EXT] Deferral of White SRF applications 040122

Andy:

The City of White has given me the authority to send this email requesting SD DANR to defer the consideration of the city SRF water and wastewater applications submitted on January 1, 2022 to the May meeting of the BWNR. The City believes they should take some additional time to evaluate their options with regards to these applications. The City will work with Banner and First District during the evaluation process and choose the best option for the city. White will submit information to SD DANR after their options are chosen for the May BWNR meeting. Thank for your assistance.  
Greg Maag
