Karla Engle, Office of Legal Counsel, shared with the Commission that, due to his employment with Black Hills Energy, Commissioner Jaf Karim has identified a potential conflict of interest with Item #2 of the Right of Way Items found on Attachment #3 in the Commission packet. Commissioner Karin has previously disclosed his employment as a potential conflict of interest and the Commission has granted a waiver of the conflict, so no further Commission action is needed. Karim will recuse himself from the discussion and vote on this item.

No other members of the Commission disclosed a conflict or requested a waiver.

Jensen asked for a motion to approve the February 15, 2024 Commission meeting minutes.

A MOTION WAS MADE by Karim and seconded by Vehle to approve the February 15 ,2024 Commission meeting minutes. All present voted aye by roll call vote. The motion carried.

Jensen opened the floor to public input.

No members of the public addressed the Commission nor offered input.

Secretary Joel Jundt presented the following items in his Secretary's Report to the Commission:

- The Federal appropriations bill has been verbally agreed upon. Another continuing resolution will be signed and set to expire on March 8, 2024 to allow time for the written document to be passed.
- Jundt gave an update on the status of the lawsuit, joined by 20 other states in addition to South Dakota, challenging Federal Highway Administration's (FHWA) new rule requiring state DOTs and Metropolitan Planning Organizations (MPOs) to set declining greenhouse gas (specifically tailpipe CO2) emission targets in connection with transportation planning. Karla Engle, Office of Legal Counsel, provided additional details about the legal filings and procedural status of the case.
- The State Legislative session is wrapping up and will be done on Thursday, March 7, 2024. The Joint Committee on Appropriations passed the Department's budget on Monday, February 25 as requested. It included additional funds for maintenance and public transit. Jundt also noted some bills that were followed by the Department, including HB1095 concerning laws for automated vehicles. This bill gives the Commission authority to promulgate administrative rules on the subject in the future. This bill had passed both Houses and was waiting for signature by the governor. If signed, it will go into effect on July 1, 2024. Other bills noted by Jundt were: SB211 (electronic remote notarization); SB76 (filling vacancies on boards and commissions); SB124 (extending the Rural Area Infrastructure Funding (RAIF) for culvert replacement to 2029); and SB169 (drone use).
- The Vehicle Miles Travelled (VMT) Advisory Team, which includes Commissioners Vehle and Simons, had an educational exchange with Utah Department of Transportation to learn about how that state implemented its voluntary VMT program. The advisory team's next step is to create the framework to move forward, including topics of legality, privacy, policy, and economic forecasting.
- There was a bridge hit on US212 at I-29 in Watertown. It is unknown who or what was the cause of the extensive girder damage. The Department will let the project as an emergency and use construction funds to fund the repairs.
- Lastly, Jundt shared that Commission Kathy Zander has given written notice of retirement from the Commission and that this would be her last meeting. He congratulated Zander and thanked her for her 10 years of service on the Commission and to the people of South Dakota.

Sam Weisgram, Office of Project Development, presented to the Commission the following bid letting results:
