SUBJECT: 2021 AIP Projects

The attached list identifies the AIP projects for 2021. The grant application deadline is May 3rd, 2021. The list is tentative, as all project application requirements must be met by the deadline.

Airports with revenue-producing hangars and fuel systems have been shown with no state participation for that component of the grant. Murdo and Webster had hangars designed in 2019 prior to the Aeronautics Commission decision to not participate in revenue-producing projects.

The Rapid City grant has two components, sewer lagoon and the GA and RTR access roads. The sewer lagoon portion has been broken out so there is no state participation in that portion.

The Hot Springs hangar has been broken out from the taxilane project and will have no state participation.
