SUBJECT: 2022 Airport Improvement Program (AIP) Projects

Attached are the planned AIP projects for 2022. These projects have been submitted through the Federal Aviation Administration (FAA) grant pre-application process. Funding for these projects is planned through entitlements, state apportionment, discretionary, state and local funds.

There is potential funding in 2022 through Bi-partisan Infrastructure Law (BIL). At this time, the funding rules are not yet known. However, if more funding becomes available through BIL, it is likely there could be more projects funded that will need to be matched.

The state match shown is that discussed at the February 17th meeting.
