Attachment #4

TO: South Dakota State Railroad Board
FROM: Jack Dokken, Office of Air, Rail and Transit
DATE: February 12, 2019
SUBJECT: Reliance Siding Crossing Removal

The SDDOT is working to install new highway grade crossing signals at the SD47 crossing in Reliance, during the summer of 2019. The side track which is no longer in use crosses SD47, approximately 40 feet south of the mainline crossing. This outdated siding has been completely paved over on SD47, but because the rail is still in place the crossing has continuous maintenance issues and annual patching needs to SD47. The old siding crossing has no useful purpose because the turnout has been moved to the east side of SD47. The SDDOT requests the SD Railroad Board approve the removal and disposal of this old siding crossing.
