SUBJECT: Purchasing airport marker cones for segmented circles.

To improve our state-wide public use airports 11 public airports have expressed interest in upgrading their segmented circles from metal A-Frame markers to plastic marker cones. Most of these metal A-frame markers are in very poor shape and need to be replaced to improve the safety and appearance of these airports.

The Department recommends the Commission authorize use of the Aeronautics fund to purchase 420 marker cones at \$37.56 per unit for a total of \$15,774.96.
