SD Aeronautics Commission
Attn: Jon Becker
Office of Aeronautics
Department of Transportation
700 E. Broadway Ave.
Pierre, SD 57501

Dear Commission Members;

The Sioux Falls Regional Airport is required to conduct monthly and annual inspection of our approach navigation equipment and these inspections have determined that our Precision Approach Path Indicator (PAPI) lights are due for replacement. These lights were first installed in 1992 and are at the end of their useful life. We have received quotes from several suppliers but have elected to replace the units from the same manufacture to reduce installation expense.

The cost of replacing the PAPI equipment from Airside Solutions, Inc. totals $27,695 plus an additional $6,550.00 to conduct final acceptance testing for a total cost of $34,245.00. These units would replace the PAPI equipment on both ends of runway 15-33 and allow us to perform our regular inspection of the equipment as required by the FAA.

The latest balance in our Aviation Fuel Tax Account reflects a total of $331,054.05 funds available for use. I am requesting the Commission distribute $34,245.00 of these funds to assist with the purchase of this critical equipment.

I thank you for your support of the Sioux Falls Regional Airport and the entire State aviation system. If I can answer any additional questions please let me know.

Sincerely,

Dan Letellier,
Executive Director – Sioux Falls Regional Airport
