Subject: [EXT] Geographic Names, South Dakota Board on

Hi, on the up coming hearing on Sept 9, 2020, pertaining to Public Comment on Proposed Names for unnamed Creek in Hughes County. My vote is for leaving it as what people people have known it as for years "MUSH" creek.

I did a scan of online newspaper and found the earliest account of the tributary being called Mush creek This article appeared in the capitol Journal in 1890 and was related to practical use of irrigation. The other article that reference Mush Creek was in the Stanley county newspaper in 1910, that article was related to a raid of a Blind Pig(illegal making of whiskey) which was being operated at the mouth of Mush Creek

Thanks
