Dear Ms. Johnson,

As you know, the League of Women Voter's have requested photocopies of driver's licenses, tribal ID, etc to be allowed. Our Department of Public Safety distinctly makes it clear on their website that photocopies are not allowed, yet the LWV has never gone after them. SB175 was mirrored according to the DPS and what ID is allowed. This is a way for the League to abolish SB175, which the Governor signed into law with an emergency clause. As you know, we can't take a photocopy of our DL to the airport and get through TSA, we can't take a photocopy of our DL to buy alcohol or tobacco, so why allow the League to make such changes to what law already clearly states as well as other state departments?! Your attention to this matter is very important.

Thank you,
Heather Baxter
