RECORD OF DEACCESSION

Deaccession No.: 165

Accession No.: 83-0117

Site No.: 39BF0205/39BF0206

Catalog Nos.: 1 to 20 (Complete Collection)

Description: One partial human patella and 21 associated funerary objects, including identifiable animal bones, bone tools, pottery bodysherds, and lithics. Originally recovered in 1975 (possibly in relation to a sewer line project); transferred from tribal law enforcement to the SD ARC in 1982 by Steve Ruple of the SD State Historic Preservation Office.

Reason: Native American Graves Protection and Repatriation Act (NAGPRA). Public Law 101-601- November 16, 1990. Section 7, Repatriation. The U.S. Army Corps of Engineers, Omaha District, is ultimately responsible for tribal consultation and for submitting the applicable *Federal Register* publication(s) prior to repatriation to the culturally affiliated tribe(s). The ARC will generate Outgoing Transfer form(s) to document the USACE's repatriation process following the 30-day comment period provided in the *Federal Register* publications; however, USACE representatives will be responsible for transferring the deaccessioned ancestral remains and/or funerary objects directly to the applicable tribal representatives.

RECORD OF DEACCESSION

Deaccession No.: 168
Accession No.: 23-0008
Site No.: 39BF0011
Catalog Nos.: 1 to 8 (Complete Collection)

Description: Funerary objects originally recovered from an eroding burial by USACE archaeologist Tim Nowak in 1982, including lithics, scapula hoe, pottery bodysherds, fire-cracked rock, and animal bone. Identified in the collection in 2023 as boxed with other site 39BF0011 accessions (see Burial Report 2023-20); ancestral remains from the same burial feature as documented in forensic report MTM-0418 were previously reburied/repatriated under USACE authority.

Reason: Native American Graves Protection and Repatriation Act (NAGPRA). Public Law 101-601- November 16, 1990. Section 7, Repatriation. The U.S. Army Corps of Engineers, Omaha District, is ultimately responsible for tribal consultation and for submitting the applicable *Federal Register* publication(s) prior to repatriation to the culturally affiliated tribe(s). RECORD OF DEACCESSION

Deaccession No.: 171

Accession No.: 88-0027A (Historic Component)

Site No.: 39BF0221

Catalog Nos.: 100, 203 to 208, 211 to 214, 216 to 217, 400, 902 to 904, 1100, 1214 to 1222, 1224 to 1229, 1231 to 1233, 1242 to 1243, and 1223A & B (Partial Collection)

Description: Skeletal elements subsequently identified from Individuals 1, 2, 3, and 4 following 1982 repatriation, plus associated funerary objects including shell and glass beads, textile fragments, animal bone, coffin wood and nails, lithics, shoe fragments, hawk bells, porcelain doll, and buttons. Funerary objects recovered with Individuals 11, 12, and 13, including glass beads, brass and copper ornamentation, coffin nails, plant fiber, marbles, animal bone, fabric and clothing fasteners, button, nails, and metal fragment. Individuals 11, 12, and 13 were reportedly submitted to the Smithsonian Institution in 1959 (disposition of Individual 11 has been confirmed; disposition of Individuals 12 and 13 remains unknown).

Reason: Native American Graves Protection and Repatriation Act (NAGPRA). Public Law 101-601- November 16, 1990. Section 7, Repatriation. The U.S. Army Corps of Engineers, Omaha District, is ultimately responsible for tribal consultation and for submitting the applicable *Federal Register* publication(s) prior to repatriation to the culturally affiliated tribe(s). Description: Skeletal elements representative of Individuals 1 through 7 as recovered in 1973. Received at the SD ARC in 2001 along with the majority of the collection. Human tooth (H123) identified during repackaging (see Burial Report 2014-22); other elements previously identified by Renee Boen upon collection receipt.

Reason: Native American Graves Protection and Repatriation Act (NAGPRA). Public Law 101-601- November 16, 1990. Section 7, Repatriation. The U.S. Army Corps of Engineers, Omaha District, is ultimately responsible for tribal consultation and for submitting the applicable *Federal Register* publication(s) prior to repatriation to the culturally affiliated tribe(s). The ARC will generate Outgoing Transfer form(s) to document the USACE's repatriation process following the 30-day comment period provided in the *Federal Register* publications; however, USACE representatives will be responsible for transferring the deaccessioned ancestral remains and/or funerary objects directly to the applicable tribal representatives.

RECORD OF DEACCESSION

Deaccession No.: 197

Accession No.: 83-0400

Site No.: 39LM0176

Catalog Nos.: 1, 2, and 3 (Complete Collection)

Description: Funerary objects consisting of one catlinite pipe, three ornamental copper discs, and one lot of glass seed beads. As recovered in 1983 when a shovel test resulted in the discovery of a historic grave feature; testing ceased when a human femur was identified, and the ancestral remains were left in place. The funerary objects were discovered in the collection at the SD ARC in 2003.

Reason: Native American Graves Protection and Repatriation Act (NAGPRA). Public Law 101-601- November 16, 1990. Section 7, Repatriation. The U.S. Army Corps of Engineers, Omaha District, is ultimately responsible for tribal consultation and for submitting the applicable *Federal Register* publication(s) prior to repatriation to the culturally affiliated tribe(s). The ARC will generate Outgoing Transfer form(s) to document the USACE's repatriation process following the 30-day comment period provided in the *Federal Register* publications; however, USACE representatives will be responsible for transferring the deaccessioned ancestral remains and/or funerary objects directly to the applicable tribal representatives.

RECORD OF DEACCESSION

Deaccession No.: 204

Accession No.: 85-0227

Site No.: 39GR0015

Catalog Nos.: 1 to 4 (Complete Collection)

Description: One adult carpal bone, plus coffin wood fragments and coffin nails from previously exhumed grave feature (Grave 2, listed as Unknown on burial register) at the Fort Randall Cemetery, which was confirmed as removed in 1893 to Fort Leavenworth, Kansas. Coffin wood fragments only as recovered from an intact grave at the Fort Randall Cemetery (Unknown Grave W II, confirmed as *not* disinterred in 1893). The individuals associated with these grave features could not be identified on the Fort Randall Cemetery burial register, but likely represent Caucasian military personnel or family members (see Burial Report 2012-02). If probable Caucasian, the USACE would be responsible for disposition based on federal regulations.

Reason: Reburial of Caucasian human remains and funerary objects, as subject to USACE regulations on military interments. If considered possibly Native American through tribal consultation, repatriation following the Native American Graves Protection and Repatriation Act (NAGPRA). Public Law 101-601- November 16, 1990. Section 7, Repatriation. The U.S. Army Corps of Engineers, Omaha District, is ultimately responsible for the appropriate disposition of the single human skeletal element and the two sets of coffin fragments.
