Cliff moved to approve the minutes of the December meeting, Paul seconded, all in favor, motion carried

Cliff moved to approve the treasurer's report and pay bills as presented, Paul seconded, all in favor, motion carried

Old Business

Building – Yvette contacted Devan with Ainsworth-Benning and the masonry work is complete and the primer coat for the sealing paint has been applied, crew is waiting for a couple of days of warmer temps to complete this portion of the project. Devan asked if the board would like to move forward with the next phase of the project, the board was unanimous in wanting to move forward, taking advantage of the nicer weather.

New Business

Board Reorganization – At 6:08 V Chairman Cliff Conry took over the meeting and re-appointed, Tim Reich, Paul Winkler and Will Lindsey for another term. Cliff turned the meeting over to Victor Tuschen who called for nominations for Chairman, Cliff moved to nominate Tim Reich, Paul seconded and called for nominations to cease, all in favor, motion carried. Paul moved that the position of V Chair currently held by Cliff Conry be retained, Will seconded the motion, all in favor, motion carried. At 6:15 the meeting was turned over to Chairman Reich.

Partner Reports – None Available

Tree/Drill Report – Currently 31 HP orders and 2 Machine Plantings, 1 machine planting cancelled due to dry conditions. Butte CD Credit App was approved by Millborn for fabric purchase. Following discussion about the drill during the December meeting, Grossenburg Implement looked at the older drill to determine

trade value and cost for an annual service/repair. Yvette shared their findings along with a quote for a new drill and cost for repair/maintenance. The board discussed the options moving forward, there is one final payment remaining and the board agreed to pay the drill off in the event of a trade. Tim will contact Grossenburg Implement regarding when delivery would be anticipated in the spring.

Grant Review – grant funds for the newly awarded grants became available January 1, 2021 and grant announcements went out in the newsletter.

BFRWP – next meeting March 18, 2021 @ 1pm, location TBD

Field Report – see handout

Justin Boerboom mentioned to the board that an irrigation water management workshop was in the works for February possibly and wondering if the Butte CD would be on board to host, the board agreed and that it would tie into the new programs.

Other

Lawrence CD Contract Renewal – action taken during December meeting, just needed signature on final document

Budget – Yvette will prepare for February meeting

Employee Wage Review – At 6:40 the board went into executive session for the purpose of discussing personnel issues, at 6:50 the board resumed regular session, Paul made a motion to increase the district manager wages, Will seconded, all in favor, motion carried.

Adjourned: 7pm

Bill:

This letter is to serve as a final report for our most recent Coordinated Soil and Water Grant, Livestock Water Development II project, #2019-CSW-038. We matched \$20,000 of grant funds with \$43,180.11 in other funds for a total of \$63,180.11. Except for the funds set aside for administering this grant, the remaining funds went directly on the ground for water development such as pipeline & tank, dam/pond construction and repair.

A total of 8 projects were completed with these funds in Butte County. The project improved 70.9 acres of wetlands and conditions on an additional 15,145.6 acres of grassland, improvements were made by identifying stocking rates, season of use and improving livestock distribution.

This has been a successful program and partnership, with many landowners interested in participating in this program. As US Fish & Wildlife Service and others partners continue to support this program it provides considerable natural resource conservation in our county and surrounding area. Thank you for your continued support and we look forward to working with you again in the future.

Sincerely,

Cover Crop Grant

We had nine producer that was in our cover crop grant. We seeded two of the producers as a district and the other seven either had someone else do the seeding or did them themselves. I was involved in ordering the seed from our seed producer and went and picked up the seed for the producer and met up with each of them for pick up.

When the producer came with payment for the seed, I had an agreement for them to sign that included the acres they planted and how much it cost to plant the seeding for them. Also included an invoice on the price of seed for their records.

With driving and hour spent on this grant and getting the producer his seed and setting up arrangement with planting my wages was \$1,800 an average of \$200.00 per producer.

Dear Brian Scott and the Conservation Commissioners,

The SDACDE Outreach Grant for 2020 was another huge success for the Conservation Districts. Although changes were made due to the covid pandemic, our association was able to continue with our outreach efforts in promoting conservation. Districts have been afforded the opportunity to host events, attend tours and hold teaching sessions.

In March, the Employees Association held the Annual Leadership Training Conference in Pierre. This was an excellent training conference which included Windbreak Training, Customer Service, Rural and Urban Stress Management, and National Conservation Planning Partnership Websites and its value to Conservation Districts. We were very fortunate to have some really great speakers. Nathan Hylla is a motivational speaker who entertained with ideas on Customer Service and Working with Partners. Car Oehlke spoke on Stress Management. Rhonda Kelsch, President of NCDEA spoke on the National Conservation District Employees Activities and Tracie Everson educated the group on Sexual Harassment in the Workplace. The final day of Leadership was dedicated to the Big Sioux Nursery with training and their annual meeting. There were forty eight (48) Conservation District employees present for the three day training; representing forty three (43) districts. Sponsors are sought to keep the cost to a minimum so Conservation Districts can afford to send their employees. Hourly wages and mileage to this event are used as a match for the grant funding. Through our trainings, our Association is able to carry out our vision statement. The SDACDE Vision Statement: *To promote the professional development of its members, creating leaders with the skills and knowledge to deliver our conservation message.* This all leads to furthering our cause through promotional opportunities. The better trained our employees are, the better prepared we are to promote conservation.

This summer our outreach activities included a booth set up for one full day at the Dakota Fest in Mitchell and Sheep Day at the Black Hills Stock Show. Employees volunteer to fill all shifts available. With the assistance of NRCS, our association was able to host a table at the Central States Fair for the entire week. We distribute our promotional items at these events; which include the "stress" trees, and the neon green back packs. Just recently purchased are shopping bags with the South Dakota Conservation Districts logo on them. These will be used at future events. The back packs are a huge hit with the kids! Our biggest event is typically the SD State Fair, however, due to the pandemic, and for the safety of our employees, the Board of Directors voted to not participate this year. Rainfall and wind simulator demonstrations were held at local

schools. Most Arbor Day celebrations were cancelled, however, the districts were able to receive and judge the essays; present winners with certificates and continue write ups in the local newspapers. Winter Farm show, Home Shows, and Legislative Dinners were attended. Social media has become essential to the business world. Most districts now have websites and Facebook pages to educate the public on services and activities. Most recently a U-Tube video was created promoting the SD conservation Districts; find it at <https://youtu.be/kLXVn4doBPA> and more of these interviews are in the works.

Without the funding from the Conservation Commission, many of these outreach events would not have been possible. Our conservation districts will continue to benefit for many years to come from the resources we have been allowed through this grant. Thank you for continuing to provide this resource.

Items cost shared through this grant funding:

Travel \$400	Motivational speaker and fees for Leadership Conference
Supplies \$5,600	1700 stress trees; 700 back packs; 350 shopping bags
<u>Admin \$200</u>	Fees to administer project
\$6,200	

Travel Match required was \$400; actual match was \$6,291.

Supply Match required was \$5,800; actual match was \$17,365.

Admin Match required was \$0; actual match was \$121.

Total Grant Funding = \$6200 + Total Matching Funds = \$23,777. Total Project = \$29,977

Article placed in the local newspapers for Arbor Day -

Hamlin Conservation Celebrates Arbor Day

Each year the Hamlin Conservation District contacts the area schools for their participation in an Arbor Day Essay Contest. This contest is conducted by the State Forestry Department. Students in the 5th grade are asked to write an essay about Arbor Day and its importance. The essays are then sent to the Conservation District where the top three from each group are chosen. From those winners, a local District 1st place is chosen and forwarded to the State competition. This year the conservation district had 72 essays to judge.

While we were not able to present these awards to the students; due to the restrictions we are currently under for the Coronavirus; the district was able to send out winning certificates and prizes to our local winners.

These winners received a cash prize along with a certificate:

The Hamlin School winners were as follows:

1 st Place – Sawyer West	\$20
2 nd Place – Laura Lehtola	\$15
3 rd Place – Samantha Schlenker	\$10

Sawyer West's essay had also been forwarded to the State level competition. Congratulations to all participants and thank you for your interest!

South Dakota Conservation Commission,

The Kingsbury Conservation would like to present the final report for the grant number 2019-csw-022 that was for Tree Renovation. The following has been accomplished with the funds that Kingsbury Conservation District received from Commission grant.

Total renovation – 6.5 acres
Total tree planting – 12.6 acres
Total fabric – 18,66 acres
Total producers – 9

The producers were very happy with the end results, and are getting the word out to others! We are looking forward to signing more producers for the 2021 Conservation grant. Problems that arose, in the spring of 2019 with rain, this made our progress slow but we were able to get most of them done.

We would like to thank the Commission for the funds to help our Producers out and thank you Brian for all the help he gave us in assisting in the process.

If there are any further questions you may have concerning this grant please feel free to contact our office.

2018-CSW-039 Final Report

This thinning grant helped a total of 5 private landowners with a total of 38.44 acres.

Charles Mclain thinned 12 acres

Tom Vore thinned 6.44 acres

George Adrian thinned 4 acres

Lisa Hermanson thinned 10 acres

Todd Hanson thinned 6 acres

This grant helped thin out privately owned land to help prevent forest fires and improve forest stand. This grant also helped the district gain better relationships with 4 different foresters and 5 different landowners.

NORTHWEST AREA NATURAL RESOURCE SPECIALIST 2019-CSW-030 FINAL REPORT

This is the final report for the South Dakota Conservation Commission grant 2019-CWS-031. The NRS, Shauna Kopren and later Tiffany Martin, has worked closely with the six northwest South Dakota Conservation Districts to promote tree planting, forest health, outreach, and conservation. The NRS has and continues to work with numerous organizations and entities including the US Forest Service, Ducks Unlimited, Pheasants Forever, South Dakota State University, US Fish and Wildlife Service, SD Game, Fish, and Parks, Natural Resources Conservation Service, Farm Service Agency, and the six northwest SD Conservation Districts.

Below is a list of the NW Area Forester activities and accomplishments.

CRP and EQIP Tree Planting

- Assist NRCS with the planning of five EQIP tree plantings in 2019
- Currently assisting four producers plan CRP tree planting for 2020

201-CSW-031 Tree Planting Grant

- In 2019 assisted 15 producers plan shelterbelts on 43 acres of land with approximately 3,800 rod rows of trees, 1,300 rod rows of shrubs, 80,000 feet of fabric and 25,000 feet of fence
- In 2020 assisted 10 producers plan shelterbelts on 22 acres of land with approximately 2,377 rod rows of trees, 259 rod rows of shrubs, 43,507 feet of fabric

Education and Outreach

- In 2019 conduct presentations at area elementary schools for Arbor Day
- In 2020 conducted a social distance Arbor Day by putting together packets for the kids to pick up along with their trees
- Help judge Arbor Day Essay Contests and present winners with prizes
- Presented at the Bison Home and Country Club in 2019 and 2020
- In 2020 presented at three Pheasants Forever farm bill open houses about our tree planting grant and shelterbelts
- In 2020 helped man the NRCS/ Perkins Conservation District booth at the Lemmon Farm and Home show
- Assisted Perkins County Conservation District, NRCS, and the Bison Highschool with setting up a job fair that was attended by 137 students from Buffalo, Lemmon, and Bison Highschool
- Distributed biweekly news releases to local newspapers to promote tree facts
- Started a Facebook Page for Tri-county and started posting to both Tri and Perkins pages weekly common tree problems and using them to promote tree sales

Other Activities

- Assisted eleven landowners in wildlife tree plans in 2019
- Assisted two landowners with tree plans for self-paid plots in 2020
- Answer over 20 public tree questions in 2019 and 2020
- Complete tree survival inventories
- Worked with the counties on future Living Snow Fence sites
- Attend monthly Conservation District Board meetings in the area
- Attend County Board of Commissioners meetings when needed
- Assisted NRCS offices as they have needed her uploading CStP, eQUIP and CRP contracts in order to meet deadlines
- Assisted NRCS with filing folders, field visits, and shelterbelt planning

This grant has provided professional assistance to the area districts in a timely manner and hopefully can continue with it in the future.

We would like to thank the Conservation Commission and the Division for supporting the Northwest Area on the Forester project.

Final reporting:

The Roberts Conservation District Tree/Shrub Livestock Shelter 2020 was able to offer financial assistance to Jared Bartnick (landowner) for the planting of trees and shrubs. The planting will provide resource benefits for reduction of wind and soil erosion, livestock protection, snow management to farmsteads, roadways, and croplands.

Additional benefits include improved air quality, conservation of energy resources, increased wildlife habitat, and the associated economic benefits to the landowner.

This project was .31 acres. The cost share was applied and limited to the planting and fabric installation costs.

Highlights of this planting include proper planting depth during installation and homeowner maintaining weed control and supplementing water to the newly planted trees/shrubs.

The landowner was busy in a field and not able to be present during planting. He instructed the team to drive his tractor for him, since he was busy. The soil was decently worked up but could have been worked a bit more and wider. Despite the soil being on the clumpy side, and the width was too narrow, the trees and shrubs look exceptional, as well as the fabric.

Roberts Conservation District would like to thank the Commission for allowing us to participate in this grant. Our landowner is thankful for the opportunity he was given.

Dear Mr. Smith,

The Day Conservation District is requesting an 1-year extension for Conservation Commission Grant 2020-CSW-011. This grant is due to expire on 30 June 2021, however due to the Covid-19 Pandemic our contact with agricultural producers has been limited as all federal NRCS offices have been closed to the general public, and partner access to these offices has also been limited. Project personnel should, as conditions return to normal this spring, begin the process of once more meeting producers one-on-one in our offices and in the field to promote and implement grant activities.

Respectfully,

Edmunds County Conservation District would like to ask for an extension to our Conservation Practice Grant number 2019-csw-042 start date July 1 2019 thru June 30th 2021.

Due to events beyond our control with the COVID-19 and other issues we would like to ask for an extension of 1 year. To date we have 2 new projects for spring of 2021 and 3 new projects for 2022 which we hope will use all the remaining funds. Edmunds is working to make this grant idea be an ongoing help for producers with cost sharing abilities. Working with all our partners to help find ways for all the producers and land owners in Edmunds is a very important relationship.

Dear State Conservation Commission Members,

The Conservation Districts are already planning for the 2021 tree planting season. Part of that planning process is reviewing our financial records to decide on how to make our businesses profitable yet manageable for producers to plant trees. Nurseries and truckers are also increasing rates which affect our prices which get ultimately passed on to our producers.

Through information I have received from the districts in the Coteau Area the average pricing for a tree planting is as follows:

Machine planted trees \$.37/ft
Machine planted shrubs \$.41/ft
Fabric installation \$.65/ft

The Coteau Area would like to request the Commission members to consider increasing the grant cost share rates for our area producers. The EAB will be making the daunting task of renovating many of our farmstead shelterbelts, so any increase in cost shares would be encouraging for our producers. As previously presented in the past years to the commission board, we also request a review of grant cost shares to producers completing renovation work themselves.

Thank you for your consideration and time as you review the current cost share rates.

Respectfully submitted,

Jean Fagerland
Marshall County Conservation District Manager

Dear State Conservation Commission Members,

The Conservation Districts are already planning for the 2021 tree planting season. Part of that planning process is reviewing our financial records to decide on how to make our businesses profitable yet manageable for producers to plant trees. Nurseries and truckers are also increasing rates affecting our prices which will be ultimately passed on to our producers. The Coteau Area would like to recommend an increase for the rate of Machine Planted Trees and Fabric & Installation to:

Machine planted trees \$.37/ft

Fabric installation \$.64/ft

NRCS and FSA are now using linear feet instead of rods for their docket. The Districts in the Coteau Area will also be revising their cost share pricing from rods to linear feet as it is less complicated for producers and invoice sharing within departments. **Would the Commission consider the revision from rods to linear feet as well?**

The EAB will be making the daunting task of renovating many of our farmstead shelterbelts a reality. **As previously presented in the past years to the commission board, we again request a review of grant cost shares to producers completing renovation work themselves.** The cost of equipment, fuel and time to complete a tree renovation is becoming very expensive. In order to keep the total project cost down many producers will be doing the work themselves. **We ask the board to please reconsider offering cost share to producers for their own labor.**

Thank you for your time as you review these current cost share docket revisions. Your effort in financially assisting our producers and districts with their conservation needs is very appreciated.

Afternoon Bill,

After asking for more input from all the districts, I have heard back from ~17 districts. They are all in agreement that the landowner should be able to receive some compensation for the labor of a tree renovation. However, it's so hard to put an exact number on it.

So I have included some of the comments from the Districts.

I know several mentioned that taking out of shrub rows is not as difficult or time consuming as the large trees, especially if they are dead or dying. So they felt that maybe there should be a different pricing for shrubs <6' and trees > 6'. Again....not an easy task for the commission board to undertake in making a decision on compensation.

NRCS docket could be used as a guideline when making their decision.

I've only worked on a few tree renovations with the grant cost sharing, but I know I've issued checks for \$28 to one producer and \$128 to another. So after all their work it was awkward to give them a small check, when I know they had completed hours of difficult work in their shelterbelts.

Not sure if I have the right answer for the commissioner's decision, but the districts just wanted them to know we need to be helping our SD landowners with their shelterbelt renovations.

Thanks again for your help in this process!

I appreciate it!

Afternoon,

We were thinking of just the trees, since the shrubs were increased in 2019 and are close to some of our rates. We were not thinking of any specific rate for the landowner, we just know that the landowner puts in hours of work with a renovation. AND they really will be with the green ash. Do you want me to take it back to the districts for their input???

Jean,

Thanks.

Were you recommending the rate of \$0.37/ft for just trees or for both trees and shrubs?

Also, regarding landowner labor, did you have a rate in mind?

Thanks,

Bill

Subject: [EXT] Docket Increase Request Letter

Afternoon,

The Coteau Area held their employee's summer meeting in July. (outside with social distancing) During the meeting the 11 conservation district managers agreed for us to send in a request for an increase for grant cost shares

with tree planting/ and fabric installation. The topic of renovations was also discussed. The cost of a renovation is getting so very expensive! Producers who know they must do something with their declining shelterbelts are going to have to do most of the renovating themselves due to the high costs. The Coteau Area Districts would request a way that producers could be reimbursed for their work completed by themselves.

We also sent this letter out to the entire SDACDE members for their input. I have heard only positive and affirming comments from 17 Districts. Some boards have also reviewed the letter and moved to send the letter of docket changes.

We realize that when there are docket increases the funding you receive does not go as far, however we are requesting the increases so our producers will be able to tackle the huge tasks of shelterbelt renovations they are faced with.

Thank you for your consideration of our requests. If you have any questions, please contact me at 605-448-2442, or send an email my direction.

Appreciate all your time that goes into a docket review.

- All practices must meet state & local ordinances (roadway snow deposition, power-line & other right-of-way standards, etc).
- Required cash contribution by the landowner. This cannot be covered by in-kind contribution or paid by other local, state or federal cash funds. Any additional cash available for the project, should be used to reduce the Conservation Commission's share, not that of the landowner.
- All cost-shared practices require a Resource Management Plan (practice plan).
- Clean outs on dugouts not cost-shared within the expected lifespan of the practice.
- Payment will be made on either fabric or chemical/mechanical weed & pest control for tree plantings but not both on an individual site.
- Monoslope/hoop barn must be replacing an existing animal feeding operation and the existing lots must be abandoned and reclaimed.
- Landowner labor can be used to meet the minimum landowner cash match requirements for Forest Stand Improvement projects.
