Vice Chair Shorma asked for a motion to approve the minutes. Commissioner Kafka moved to approve the minutes. Commissioner Huizenga seconded the motion. Motion passed with no objection.

CONFLICT OF INTEREST

Vice Chair Shorma asked if there were any conflicts of interest and there were none.

EXECUTIVE DIRECTOR'S COMMENTS

Executive Director Norm Lingle reported on the following:

Personnel changes to the Lottery

- Nick Michels was sitting in for Chief Legal Counsel Andy Fergel, who is moving on to lead the South Dakota Bar Association.
- Whitney Ellwanger joined the Lottery in January 2018. She is part of the team maintaining the lottery social media, website, graphics, monitors at retailers and other point of sale materials.
- Matt Piersall joined the Rapid City sales team May 9, 2018. He took the place of Sandy Schleining who retired in December 2017.
- Shawn Castonguay joined the Pierre office on May 24, 2018 as a senior computer operator. He will work with the Video Lottery system, operators, techs out in the field and assisting in setting up new establishments.
- Sam Stanforth resigned his position to take a job in Sioux Falls with an IT firm.
- John Hepper is retiring on June 8, 2018. He was the Lottery Licensing Manager for the past 30 years. He was also looked upon as the historian and a great resource to turn to for answers concerning the Lottery.

New phone system was installed. This call center type system will help direct the 2,400-3,000 phone calls received monthly evenly between the five computer operators. When the public calls the main computer number it will transfer the call to the operator who has been idle the longest.

A new Lotto Terminal Promotion is scheduled for July 2 – July 31, 2018. The theme is Try “Lucky” For Free. Purchase \$5 worth of Lotto America tickets at one time and receive (1) Lucky For Life ticket for free.

ONLINE AND VIDEO LOTTERY RFP UPDATE

Executive Director Norm Lingle reported on the following:

Norm Lingle Informed the Commission of updates to the RFP, replacing lotto gaming system, and potential of replacing the Video lottery gaming system.

- January 31, 2018 the RFP was issued
- April 20, 2018 proposals were due and four were received.
- The vendors that responded were IGT, Scientific Games, Intralot and Pollard Bank Note. Vendors were limited to 600 pages for the Lotto proposal or 900 pages if they were also proposing for Video Lottery.
- Lotto proposals have been reviewed by a team made up of lottery staff, DOR administration, and BIT. Review of the Video Lottery proposals should be completed in a couple weeks.
- Contracts will be for seven years with eight one-year renewals available at the Lottery’s discretion. The RFP included mandatory requirements, specified options and invited options in their proposals.
- The goal is to be in position for September 6, 2018 Lottery commission meeting to make a recommendation to the Lottery Commission for approval of a particular vendor or vendors.

VIDEO LOTTERY – PROTOCOL DISCUSSION (LEGACY TERMINALS) Update

Deputy Executive Director Clark Hepper reported on the following:

- Meeting with the industry to establish a possible end date of the VLC . The first VLC was enrolled with the start of video lottery in 1989.
- In 2008, The Lottery Commission obsoleted the VLC in South Dakota since the manufacturers are unable to support the outdated machines.
- Meetings with the industry started in February 2018. Identified fifteen of the operators own 2/3 of the machines. Received a wide variety of input from the operators.
- 65 operators own 25 machines or less with a total of 667 machines. This generates about \$1.4 million annually. 29 of those 65 operators that have less than 10 machines.
- Next generation of players prefer to play the new machines. Existing players are slowly migrating to the new machines.
- Machines are being replaced on a cash based business only. Split between operators and establishments vary, 80/20 or 60/40 split. Cost of the machines range from \$12,000 - \$15,000 per machine. 50/50 split between the operators and the state for the net machine revenues has hurt their cash flow, which makes it harder to upgrade. Continual attempts to end video lottery through legislation has been a concern.
- Languages in the RFP may have some impact on an establishing an end date.
- Still have information to collect and everyone has a voice in this. Decisions will be made the end of this year or the beginning of next year.
- 9,067 machines in the field with 1/3 being new machines vs 2/3 being old machines. Machines do get sold between operators.

SALES REPORT

Director of Sales Tom Helland reported on the following:

- Instant ticket sales up 14.5 % over last year.
- Lotto sales driven by big jackpots.
- Instant and Lotto sales through nine months are up. Over \$6 million over FY2017.

To help improve sales and player experience the South Dakota Lottery Launched a mobile app in April 2018 to the Players Club. Currently, 1400+ downloads which will allow players to scan tickets right on their phone. Players Club has about 15,000 members.

VIDEO LOTTERY REPORT

Director of Sales Tom Helland reported on the following:

- Net Machine Income – up about 4%
- Video Lottery revenue projections as of March 31, 2018 increased \$4 million over last year.

PUBLIC COMMENT

Vice Chair Shorma:

Vice Chair Shorma invited anyone from the public to come up for comment. There were no comments from the public at this time.
