Union County still has \$3,966.17 left of the PSAP grant. We were approved and have purchased many other items with the grant money including chairs, radios, a server and lockers.

We currently have 7 computers that are outside of warranty dates in the PSAP that are needing to be replaced. Union County has a contract with RTI in North Sioux City who handles all of our IT needs including computer purchases. I have received a quote for the computers, which is attached with this letter. The hardware cost alone is \$5,285.00.

I am requesting that the remaining, \$3,966.17, be applied toward the cost of the new computers.

Thank you for you time and consideration.

Sara Beatty  
911 Director  
Union County
