A board member shall disclose any potential conflict of interest in a contested case proceeding or disciplinary action on the record at the initiation of the hearing, or during the hearing if the board member becomes aware of the existence of a potential conflict of interest at that time. Upon the board's own motion or the motion of a party, and considering the rule of necessity should maintenance of a quorum be an issue, the board may recuse a member with a potential conflict of interest if it determines that the potential conflict of interest raises an unacceptable risk of bias or prejudgment in the contested case proceeding or disciplinary action.

# ***Code of Conduct and Conflict of Interest Policy for Use By State Authority, Board, Commission, and Committee Members***

## ***Purpose***

The purpose of this code of conduct and conflict of interest policy (“Code”) is to establish a set of ethical principles and guidelines for members of state authorities, boards, commissions, or committees when acting within their official public service capacity. This Code applies to all appointed and elected members of state authorities, boards, commissions, and committees (hereinafter “Boards” and “Board member(s)”).

## ***Conflict of Interest for Board Members***

Board members may be subject to statutory restrictions specific to their Boards found in state and federal laws, rules and regulations. Those restrictions are beyond the scope of this Code. Board members should contact their appointing authority or the attorney for the Board for information regarding restrictions specific to their Board.

## ***General Restrictions on Participation in Board Actions***

A conflict of interest exists when a Board member has an interest in a matter that is different from the interest of members of the general public. Examples of circumstances which may create a conflict of interest include a personal or pecuniary interest in the matter or an existing or potential employment relationship with a party involved in the proceeding.

Whether or not a conflict of interest requires a Board member to abstain from participation in an official action of the Board depends upon the type of action involved. A Board’s official actions are either quasi-judicial or quasi-legislative. A quasi-judicial official action is particular and immediate in effect, such as a review of an application for a license or permit. In order to participate in a quasi-judicial official action of the Board, a Board member must be disinterested and free from actual bias or an unacceptable risk of actual bias. A Board member must abstain from participation in the discussion and vote on a quasi-judicial official action of the Board if a reasonably-minded person could conclude that there is an unacceptable risk that the Board member has prejudged the matter or that the Board member’s interest or relationship creates a potential to influence the member’s impartiality.

A quasi-legislative official action, also referred to as a regulatory action, is general and future in effect. An example is rule-making. If the official action involved is quasi-legislative in nature, the Board member is not required to abstain from participation in the discussion and vote on the action

unless it is clear that the member has an unalterably closed mind on matters critical to the disposition of the action.

“Official action” means a decision, recommendation, approval, disapproval or other action which involves discretionary authority. A Board member who violates any of these restrictions may be subject to removal from the Board to which the member is appointed.

### ***Contract Restrictions***

There are federal and state laws, rules and regulations that address conflict of interest for elected and appointed Board members in the area of contracts. As an initial matter, a Board member may not solicit or accept any gift, favor, reward, or promise of reward, including any promise of future employment, in exchange for recommending, influencing or attempting to influence the award of or the terms of a state contract. This prohibition is absolute and cannot be waived.

Members of certain Boards are required to comply with additional conflict of interest provisions found in SDCL Chapter 3-23 and are required to make an annual disclosure of any contract in which they have or may have an interest or from which they derive a direct benefit. The restrictions apply for one year following the end of the Board member’s term. The Boards impacted by these laws are enumerated within SDCL 3-23-10. For more information on these provisions, see the State Authorities/Boards/Commissions page in the Legal Resources section of the Attorney General’s website at: <http://atg.sd.gov/legal/opengovernment/authorityboardcommission.aspx>.

Absent a waiver, certain Board members are further prohibited from deriving a direct benefit from a contract with an outside entity if the Board member had substantial involvement in recommending, awarding, or administering the contract or if the Board member supervised another state officer or employee who approved, awarded or administered the contract. With the exception of employment contracts, the foregoing prohibition applies for one year following the end of the Board member’s term. However, the foregoing prohibition does not apply to Board members who serve without compensation or who are only paid a per diem. See SDCL 5-18A-17 to 5-18A-17.6. For more information on these restrictions see the Conflict of Interest Waiver Instructions and Form on the South Dakota Bureau of Human Resources website at: <http://bhr.sd.gov/forms/>.

Other federal and state laws, rules and regulations may apply to specific Boards. For general questions regarding the applicability of SDCL Chapter 3-23 or other laws, a Board member may contact the attorney for the Board. However, because the attorney for the Board does not represent the Board member in his or her individual capacity, a Board member should contact a private attorney if the member has questions as to how the conflict of interest laws apply to the Board member’s own interests and contracts.

### ***Consequences of Violations of Conflict of Interest Laws***

A contract entered into in violation of conflict of interest laws is voidable and any benefit received by the Board member is subject to disgorgement. In addition, a Board member who violates conflict of interest laws may be removed from the Board and may be subject to criminal prosecution. For example, a Board member may be prosecuted for theft if the member knowingly

uses funds or property entrusted to the member in violation of public trust and the use resulted in a direct financial benefit to the member. See SDCL 3-16-7, 5-18A-17.4, and 22-30-46.

### ***Retaliation for Reporting***

A Board cannot dismiss, suspend, demote, decrease the compensation of, or take any other retaliatory action against an employee because the employee reports, in good faith, a violation or suspected violation of a law or rule, an abuse of funds or abuse of authority, a substantial and specific danger to public health or safety, or a direct criminal conflict of interest, unless the report is specifically prohibited by law. SDCL 3-16-9 & 3-16-10.

Board members will not engage in retaliatory treatment of an individual because the individual reports harassment, opposes discrimination, participates in the complaint process, or provides information related to a complaint. See SDCL 20-13-26.

### ***Anti-Harassment/Discrimination Policy***

While acting within their official capacity, Board members will not engage in harassment or discriminatory or offensive behavior based on race, color, creed, religion, national origin, sex, pregnancy, age, ancestry, genetic information, disability or any other legally protected status or characteristic.

Harassment includes conduct that creates a hostile work environment for an employee or another Board member. This prohibition against harassment and discrimination also encompasses sexual harassment. Sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexually harassing nature, when: (1) submission to or rejection of the harassment is made either explicitly or implicitly the basis of or a condition of employment, appointment, or a favorable or unfavorable action by the Board member; or (2) the harassment has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

Harassment or discriminatory or offensive behavior may take different forms and may be verbal, nonverbal, or physical in nature. To aid Board members in identifying inappropriate conduct, the following examples of harassment or discriminatory or offensive behavior are provided:

- Unwelcome physical contact such as kissing, fondling, hugging, or touching;
- Demands for sexual favors; sexual innuendoes, suggestive comments, jokes of a sexual nature, sexist put-downs, or sexual remarks about a person's body; sexual propositions, or persistent unwanted courting;
- Swearing, offensive gestures, or graphic language made because of a person's race, color, religion, national origin, sex, age or disability;
- Slurs, jokes, or derogatory remarks, email, or other communications relating to race, color, religion, national origin, sex, age, or disability; or
- Calendars, posters, pictures, drawings, displays, cartoons, images, lists, e-mails, or computer activity that reflects disparagingly upon race, color, religion, national origin, sex, age or disability.

The above cited examples are not intended to be all-inclusive.

A Board member who is in violation of this policy may be subject to removal from the Board.

### ***Confidential Information***

Except as otherwise required by law, Board members shall not disclose confidential information acquired during the course of their official duties. In addition, members are prohibited from the use of confidential information for personal gain.

### ***Reporting of Violations***

Any violation of this Code should be reported to the appointing authority for the Board member who is alleged to have violated the Code.

**Co-Investigator: James Wallace, MD**

Project Statement: The Collaborative Research Center for  
American Indian Health (CRCAIH) is designed to create a  
platform to bring together Tribal communities and health  
researchers, from multiple disciplines, to work together in the  
development of cutting-edge transdisciplinary research that will  
address the significant health disparities experienced by  
American Indians in South Dakota, North Dakota and Minnesota.  
The research project ‘Factors Influencing Pediatric Asthma  
(FIPA)’ is a cross sectional investigation of a broad range of  
factors running from genetics, immunity, environmental  
exposures, educational ability, economic resources, access and  
utilization of medical care, to perceived quality of life.

**Pilot Research Project PI: James Wallace, MD**

Project Statement: The Breathing Relief Education and Tribal  
Health Empowerment (BREATHE) project aims to improve the  
quality of life for American Indians with lung disease by providing  
education, identifying undiagnosed cases, and reinforcing self-  
sufficiency and empowerment in diagnosed individuals. One of

the primary intentions of the program is to establish a model for present and future efforts for pulmonary health intervention. The main hypothesis of BREATHE is that individualized asthma education and subsequent follow-ups will improve medication compliance and positively impact quality of life in people with asthma. In addition, BREATHE seeks to screen community members for asthma and refer them to health care providers in order to identify those without a diagnosis, ultimately to understand the breadth of the issue of asthma in the Cheyenne River Sioux Tribe
