Subject: [EXT] Citizen ONLY voting
Date: Wednesday, July 8, 2026 9:02:37 AM

Do you think you were hired to enjoy a vacation for the duration of your term?! You were voted into office for among other duties, but most importantly to secure our elections. Other elected officials passed a bill authorizing you to implement a CITIZEN ONLY voting law. You have had a year! I don't want to even hear about photo copied proof of citizenship, if you can photocopy it, just bring the original and be done with it! The League of Women Voters should only have as much control as each individual voter in the group casts in the election. They should not be considered as a voice in the room. Get on it or get out!
