South Dakota Prescription Drug Monitoring Program Update

September 14, 2023

What's New at the SD PDMP?

- SD's BJA FY 21 Harold Rogers PDMP Grant update:
 - Still no funding due to BJA's interpretation of our vendor relationship
 - Bamboo Health payment plan has begun for the two grant projects that were continued from 10.01.21 to 01.31.23
- Data Integrity Update – PIC Error Report Notifications rolled out 08.14.23
- PharmaDrop receptacles placed at Lewis Family Drug in Plankinton and Downtown Drug in Watertown bringing the total number of participating SD pharmacies to 93

Presentations Given/Events Attended

- TTAC North & East PDMP Regional Meeting – Kansas City, MO
- NABP/AACP District V Annual Meeting – Medora, ND
- NABP PMP InterConnect Steering Committee Meeting – Mount Prospect, IL
- Bamboo Health Client Meeting – Mount Prospect, IL
- SD Opioid Abuse Advisory Committee Meeting – PDMP Update presentation

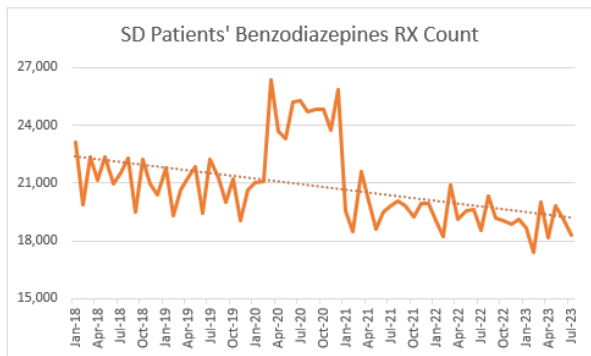

Upcoming Events

- SDPhA 137th Annual Convention – September 15-16, 2023 – Deadwood – SD BOP/SD PDMP 2023 Update presentation
- NASCSA Annual Conference – October 22-26, 2023 – Minneapolis, MN

SD Patients' Opioid Prescriptions

SOUTH DAKOTA PHARMACISTS ASSOCIATION ANNUAL REPORT

ASSOCIATION

Presented to the SDPhA Membership Sept. 15, 2023

To Association Members,

The Board of Directors and staff of the South Dakota Pharmacists Association (SDPhA) are pleased to present this year's Annual Report. The report describes the SDPhA's activities from September 2022 through early September 2023. Within this report you will find a brief description of the many activities, projects, and issues pursued by the Association on behalf of members over the past year.

You are invited to examine this report in detail and become familiar with the actions and initiatives developed to support the profession of pharmacy in South Dakota. The Executive Board and staff thank the members of SDPhA for their contributions and support, without which our efforts would not be as successful.

STATE PRIORITIES AND INITIATIVES

Legislative Initiatives | 98th Legislative Session

Things were quite active for the SDPhA Commercial and Legislative Branch well before the session started. In fact, round two of work on legislation to regulate PBMs began shortly after the gavel fell on the 97th (2022) Session. Nearly immediately after SB 163 failed on a tie vote in 2022, several Senators expressed to us, and some of our opponents, that they had a desire to see this work come to fruition for the good of all. We took those words to heart, and your SDPhA board soon went to work. SB 163 was very comprehensive legislation, so the board's first task was to identify the "must have" provisions from that bill. The goal was to identify the pieces with the most immediate impact should the bill become law. After many months and countless hours of negotiations with stakeholders (including Wellmark and PhRMA, among others), all the SDPhA priorities remained in the 2023 bill which came to be known as HB 1135.

Here are the highlights of the bill:

- **Prohibit direct or indirect retroactive claim adjustments** unless it's the result of a technical billing error, audit, fraudulent or duplicate claim. (Section 13)
- **Prohibit the numerous onerous fees** PBMs charge pharmacies. (Section 14)
- **MAC list regulation** to help ensure pharmacies are paid fairly and transparently. (Sections 15-16)
- **Prohibit a PBM from reimbursing its own pharmacies more** than it does other resident South Dakota pharmacies (Section 17)
- **Strengthens gag clause prohibition** (Section 10)

In addition, the bill strengthens audit (Section 4, 7) and reporting (Section 18) requirements for PBMs (including identifying all instances of spread spicing) and establishes the conditions under which the Division of Insurance may suspend, revoke, or deny a PBM's license (Section 19).

HB 1135 came unanimously out of the House Commerce and Energy Committee, Feb. 8, passed the House of Representatives 62-5 Feb. 12, passed unanimously out of the Senate Health and Human Services Committee, and passed the full Senate with a vote of 34-0. Wellmark, Hy-Vee, Avera and the South Dakota Retailers spoke as proponents of the bill. HB 1135 was signed into law by Gov. Kristi Noem March 23, 2023. It became law in South Dakota July 1, 2023.

We want to express our immense gratitude to Rep. Mike Weisgram, the Prime Sponsor of HB 1135, and Sen. Mike Diedrich, the prime sponsor on the Senate side. These two gentlemen put in a lot of work to help us pass this bill. In

addition, thank you to Eric Grocott, Hugh Mack, Lindsey Osterkamp, and Kristen Carter for their invaluable testimony, as well as to all of you who wrote, called, emailed, and showed up to make sure the voice of pharmacy was heard. Thank you to SCAPP student liaisons Kaylee Ayers and Annabelle Simpson, who rallied our student pharmacists, and thanks to some fortuitous timing – ensured we packed the first committee hearing with a sea of beautiful white coats. Last but certainly not least, we would not be where we were it not for Craig Matson, our lead lobbyist on this issue. He put countless hours into this bill in the “off season” with Amanda Bacon and the SDPhA board, as well as the other principal stakeholders. His partner Roger Tellinghuisen was also integral to the passage of HB 1135.

In the months that followed HB 1135 becoming law, SDPhA went to work with the South Dakota Division of Insurance (SD DOI) on the process and procedure for filing complaints and violations of the new law. We thank the DOI for bringing us to the table early and often in this process. We worked with them to create an intake form that is simple and direct, yet comprehensive. The form is now posted [on the Division’s website](#). You’ll also find a link on the SDPhA resources page.

One very important note – it is incumbent upon us to report issues and they occur and provide the proper documentation regarding. Complaints need to be reported IN WRITING via the form. A phone call to the DOI is not going to initiate the process. This process is new for everyone, and we are committed to taking the time to work through any issues that arise with the process, when and if they should arise.

We would be incredibly remiss if our legislative wrap up we did not also highlight the skilled work of our longtime SDPhA lobbyist and general counsel Robert Riter and his daughter and partner Lindsey Riter-Rapp. Their work has been so very instrumental the past few years. Their historical knowledge of our issues is foundational in handling so many key issues of consequence to the profession. You will find their full report which details the many other bills and issues SDPhA worked on this session included in this meeting booklet.

You will receive updates from Lindsey Riter-Rapp and Craig Matson during Friday’s SDPhA Business meeting.

Legislative Days | Feb. 7-8

They say timing is everything and that couldn’t possibly be truer than for the 2023 Legislative Days event at the Capitol. The event Feb. 7-8 coincided with the House Commerce Committee Hearing for HB 1135, and we filled the committee room with pharmacy students eager to see the process and take a stand (literally – it was standing room only) for their profession.

Tuesday evening provided a town hall style opportunity for pharmacists, pharmacy technicians and pharmacy students to learn about our work thus far in the legislative session. Lindsey Riter-Rapp, SDPhA lobbyist, and Amanda Bacon, SDPhA executive director, discussed the various bills and legislation SDPhA was working on your behalf. The group also heard from Kari Shanard-Koenders, Executive Director, Board of Pharmacy. Wednesday morning prior to the committee hearing, we provided wellness screenings at the Capitol, courtesy of the roughly 30 SDSU student pharmacists who attended.

Legislative Days is a fantastic opportunity to show a much broader range of the great work you all do each day. It’s also a unique chance for students to hone their skills by providing screenings, while also having the option to sit-in on various committees, and venture onto the House and Senate floors to meet their lawmakers. There’s nothing like learning the legislative process first-hand! Practicing pharmacists, we strongly encourage you to join us next year – your involvement further showcases, for students and lawmakers alike, the importance of having a strong presence at the table during legislative session. Join us Feb. 13-14, 2024!

Medical Marijuana | IM 26 Oversight Committee

Medical marijuana is now legal in South Dakota, and the legislature continues to spend a significant amount of time hammering out details around the program, including the makeup of the medical marijuana oversight committee.

Initiated Measure 26 required the creation of the committee, but lawmakers overhauled the committee. It still has 11 members but only two of the original members remain – Sen. Erin Tobin who chaired the committee, and patient Elizabeth Tiger. The Legislature’s Executive Committee revised the makeup of the committee to include:

- Two members of the Senate;
- Two members of the House of Representatives;
- One physician licensed in accordance with chapter 36-4;
- One physician assistant licensed in accordance with chapter 36-4A;
- One certified nurse practitioner licensed in accordance with chapter 36-9A;
- One chief of police for a municipality having a population in excess of fifty thousand, or a representative of the police department designated by the chief;
- One sheriff of a county or a representative of the sheriff’s office designated by the sheriff
- One professional counselor licensed in accordance with chapter 36-32 or one addiction counselor licensed in accordance with chapter 36-34; and
- One qualifying patient. Each appointee shall serve for a term of two years and may be reappointed.

SDPhA has not taken a position on medical marijuana but has worked with legislators throughout the process to serve as a trusted resource on the topic. We continue to provide relevant, research-based information as the need arises. Eric Grocott, a past president of SDPhA, was appointed to the initial 14-member oversight committee.

Lobbying Funds Update | Commercial and Legislative Branch

All this legislative work leads us here – to the vital role the Commercial and Legislative Fund plays in our ability to move forward with PBM reform, and other legislative priorities. The work of recent years has shed light on something that may have seemed a bit mysterious to many – the SDPhA Commercial and Legislative (C&L) Branch. The C&L branch is the lobbying arm of the association.

Some particularly important things about this fund:

- The funds for our lobbying branch must be maintained separate from the general fund
- It relies nearly exclusively on your contributions
- For many years now, expenses have vastly outpaced contributions

Lobbying is an extremely expensive, but necessary function. We have been represented by the same firm for decades, and the executive director also performs many lobbying duties. That has all kept our rate extremely low. Before the past two years, our lobbying expenses typically totaled about \$12,000 per year. This amount is far below the going rate of most lobbyists. The past few years, we have needed additional lobbyists working with us. That means expenses have increased dramatically, and we have needed to spend an average of \$33,000/year for the past two years. While those costs will continue to increase, they remain far below the going rate for most lobbyists. As we continue to work through PBM and other significant issues, we foresee needing to move forward with all four lobbyists for the next few years. The reality is, to ensure the profession has a seat at the table, we must pay for the chair. We are 2½ months into the 2023-2024 fiscal year. So far, contributions are minimal. Simply put, we need your help. \$25, \$250, \$2,500 – whatever you can contribute will help ensure the profession continues to have representation at the Capitol. Because without your contributions – it simply won’t.

You can support the C&L Fund by [contributing online](#), or sending a check made out to the SDPhA C&L Branch, PO Box 518, Pierre, SD 57501.

NATIONAL INITIATIVES | PBMS AND OTHER ISSUES

Pharmacy matters have garnered a lot of attention on Capitol Hill over the past year. In a sharply divided Congress – PBM issues and other issues of consequence to the profession are enjoying broad bipartisan support. We have worked closely with our national partners and with Sen. John Thune’s office for some time now, and the past few months are

showing the fruit of that labor. If you are not on the SDPhA Facebook Group Page – you need to be! That has been our most effective way to push out updates and information on these efforts. We know your email is overflowing, and we work hard not to add to that clutter. So, this is the way we bring you the more time-sensitive updates you need to know. Here are some of the most recent items we have worked with Sen. Thune’s office to help introduce or advance:

- **July 20th** – Sen. Thune introduced S.2405, the [Strengthening Pharmacy Access for Seniors Act](#), bipartisan legislation that would increase transparency measures on pharmacy benefit managers (PBMs) and provide seniors with additional options to fill their prescriptions. You can [find the release, complete with comments from SDPhA here](#).
- **July 25th** – Sen. Thune introduced S.2477, the [Equitable Community Access to Pharmacist Services Act](#), bipartisan legislation that would ensure seniors can continue to access certain clinical services from their pharmacist. The bill would allow Medicare to reimburse for certain pharmacist-administered tests, treatments, and vaccinations for influenza, respiratory syncytial virus (RSV), COVID-19, and strep throat, in accordance with state scope-of-practice laws. This bill is the companion bill to HR 1770 – the ECAPS bill introduced in the House of Representatives.
- **July 26th** – The Senate Finance Committee held a hearing on the PBM reform bills under its jurisdiction. If you’re part of the Facebook Group – you heard my call for how important it was for our Senators – particularly Senator Thune to hear from you on [The Drug Price Transparency in Medicaid Act \(S. 1038\)](#) and [The Protect Patient Access to Pharmacies Act \(S. 2052\)](#). ALL provisions of BOTH bills are vital for real PBM reform, and for addressing PBM manipulation that harms the most vulnerable in the Medicaid and Medicare programs.

A few other PBM bills are making their way through both the House and Senate to keep an eye on:

- S. 1339, The [Pharmacy Benefit Manager Reform Act](#), seeks to curb spread pricing and increase oversight on PBMs, was introduced April 27. It was placed on the Senate Legislative calendar June 22.
- Lawmakers reintroduced the [Prescription Pricing for the People Act \(S.113\)](#) and the [Pharmacy Benefit Manager Transparency Act on Jan. 26](#). The former would require the Federal Trade Commission to study consolidation in the PBM industry and is in the Senate’s judiciary committee. The latter looks to ban PBMs from reimbursement clawbacks and other practices deemed deceptive and is in the Commerce, Science and Transportation committee.
- The [PROTECT 340B Act](#), H.R. 2534, or the Preserving Rules Ordered for the Entities Covered Through 340B Act, looks to prevent PBMs from adjusting eligible pharmacies for a federal drug pricing program. It was introduced April 6 in the House and has been referred to three House committees.

These are just a few of the bills impacting pharmacy currently in various stages on the Hill. Please continue to watch our social media for more on all those bills, to name a few. A special thank you to the community pharmacies who have invited our Senators and Congressmen into their pharmacies in recent months. It is so impactful for them to see how things are really going firsthand from all of you.

Federal Trade Commission Probe Update

Roughly 1 ½ years ago, the Federal Trade Commission (FTC) announced the launch of an inquiry into the PBMs role in the U.S. pharmaceutical system. In mid-May 2023, the FTC announced it would dig deeper into the issue of PBMs as part of its on-going probe, issuing compulsory orders to two group purchasing organizations (GPOs) – Zinc Health Services, LLC and Ascent Health Services, LLC. GPOs negotiate drug rebates on behalf of other PBMs. The FTC previously issued compulsory orders to the six largest PBMs in the U.S. healthcare industry.

SDPhA, along with many other organizations and individuals from South Dakota (some 24,000 comments were previously submitted), again submitted comments to the Federal Trade Commission (FTC) regarding detrimental PBM practices. and previously expressed similar concerns to the Centers for Medicare and Medicaid Services (CMS) regarding DIR fees and their 2023 proposal.

Centers for Medicare and Medicaid Services

The CMS [final rule](#) to, “put an end” to PBMs retroactive DIR fees goes into effect Jan. 1, 2024. The rule requires DIR fees be reflected in the negotiated price the patient pays at the point of sale. So, the rule does not remove DIR fees, but instead moves them to the point-of-sale negotiated price. The fee reform is a huge cashflow shift that will impact pharmacy. The first half of 2024, pharmacists will have to pay their 2023 DIR payments, and CMS will reimburse less during that transition.

In the end, the update should be a win for patients with CMS Medicare or Medicaid, who currently pay inflated prices for medications, because they will have lower co-pays up front. The idea is that pharmacists benefit in the long run as well from increased drug cost transparency. Under the new rule, pharmacists can negotiate the price of a drug with a patient upfront.

PREP Act Authorities and the Public Health Emergency | Federal and State Impact

The COVID-19 Public Health Emergency (PHE) ended May 11, 2023. That ended some of the flexibility the government had for pandemic related efforts and means changes in how some receive COVID-19-related care. The department of Health & Human Services (HHS) announced it would extend certain authorities and corresponding liability protections for pharmacists, technicians, and students authorized under the PREP Act (separate from the PHE) until December 2024. SDPhA signed on to the efforts of many pharmacy organizations requesting the extension of these authorities. At its March meeting, the South Dakota Board of Pharmacy motioned to direct the board to work on Rules to make PREP Act authorization permanent for South Dakota. More discussion took place at the June meeting. SDPhA looks forward to working with the Board of Pharmacy on this process as appropriate.

Additional National Advocacy Efforts

SDPhA also remains engaged in a variety of ways in other various additional national efforts on key topics directly impacting our pharmacists such as: COVID-19 advocacy, provider status, reproductive health care, DIR fee relief, pricing transparency, DSCSA, improvements to Medicare, prescription drug misuse and abuse, biologics and biosimilars, and compounding guidance.

PRESCRIPTION DRUG ABUSE AND AWARENESS

DEA Take-Back Events

The Association continues its work to bring awareness to the proper disposal of medications. As the number of Drug Take-Back Sites continues to increase across the state, we gladly help promote them. They are some of the most responded to and shared posts on our social media channels. In addition, we continue to support and promote the DEA Drug Take-Back events. The Fall Take Back event is now scheduled for Oct. 28, 2023

Visit https://www.dea diversion.usdoj.gov/drug_disposal/takeback/ for more information.

Prescription Drug Monitoring Program

The Prescription Drug Monitoring Program (PDMP) continues to grow and be an excellent resource for practitioners. South Dakota state law mandates PDMP registration for everyone who has a SD Controlled Substance Registration (SD CSR).

While the Board of Pharmacy is the entity managing the program, an advisory board was established under the law which consists of at least twelve (12) designees. Jessica Strobl serves on SDPhA’s behalf on the advisory board. The group will meet again this Fall, and continues to make recommendations to the Board of Pharmacy as to how to best use the program to improve patient care and reduce the misuse, abuse or diversion of controlled substances. The advisory council also makes recommendations to the Board regarding safeguards for release of information to only persons entitled to access to maintain the confidentiality of program information.

SDPhA has strongly supported the PDMP since its inception and remains a solid supporter of the program.

South Dakota Opioid Abuse Advisory Committee

This committee met most recently on Aug. 24, 2023. The next meeting should be held in early 2024. SDPhA Past President Kristen Carter represents SDPhA. The goal of the group is to review opioid use data for the state and develop strategies for preventing prescription opioid misuse and abuse. According to the National Institute on Drug Abuse, researchers have observed increases in substance abuse and drug overdoses since the COVID-19 pandemic was declared a national emergency. Nationwide, pharmacists continue to engage in the work to prevent prescription drug abuse with the knowledge that real solutions must balance the need for patient access to medications for legitimate medical purposes with the need to prevent diversion and abuse. You can learn more about their work here:

<https://doh.sd.gov/news/opioid.aspx>.

HEALTH PROFESSIONAL ASSISTANCE PROGRAM

The passage of SB4 in 2021 brought changes to some of the requirements for HPAP program administration. We continue to appreciate open communication with the Board of Pharmacy on what this may mean for the program's future. Our association continues to support HPAP, and saw a decrease from \$20,000 to \$15,000 in the billing for FY 2023-2024. A pharmacist may access the program by self-referral, board referral, or referral from another person or agency, employer, coworker or family member.

PHARMACY TECHNICIAN UNIVERSITY (PTU)

The SDPhA board is committed to strongly supporting pharmacy technicians, including finding them, training them, and keeping them. We know this is becoming an even more pressing issue now than perhaps ever before.

After negotiating a new contract for 2022-2024, SDPhA is pleased to continue to offer low-cost access to this online training module. As with everything, user fees increased slightly starting in July 2022, and again in July 2023. SDPhA has now enrolled nearly 180 participants. We are also thrilled to report that last school year, 14 student participants completed PTU through the DIAL Virtual Program for the 2022-2023 school year. This school year we have a record 15 students enrolled in the program from across the state, but a whopping nine Lakota Tech High School. We appreciate the pharmacists who have stepped up in communities across the state to work with the DIAL program and these students. This is an exceptional opportunity to introduce the profession into the school system, and we are grateful for everyone working together who makes it happen.

Just a reminder, the Therapeutic Research Center - PTU 101 module we administer qualifies as a PTCB-Recognized Education/Training Program of the CPhT program, and upon completion, allows participants to sit for the certification exam. In addition to PTU 101, we now offer four additional training modules through TRC:

- PTU Elite: Immunizations
- PTU Elite: Math Mastery – Community Pharmacy
- PTU Elite: Compounded Sterile Preparation Technician Program
- PTU Elite: Soft Skills Program.

You can find out more about those on our website. For more details and enrollment information, contact Amanda Bacon at amanda@sdpha.org or (605) 224-2338.

NATIONAL, REGIONAL, AND STATEWIDE MEETINGS

APhA Annual Meeting | March 24-27

The APhA Annual meeting took place in Phoenix, AZ March 24-27. SDPhA Board President Melissa Gorecki represented SDPhA and South Dakota in the House of Delegates. South Dakota attendees, including the SDSU SCAPP students and faculty had a night out for dinner and some activity – which is always a highlight!

NCPA Congressional Pharmacy Fly-In | April 26-27

This year the National Community Pharmacy Association resumed holding the annual pharmacy fly-in. Weather and other factors kept an association representative from attending, but we do appreciate South Dakota pharmacist Ben Ostebee was working with NCPA for the past year – he made sure to make the rounds to the South Dakota congressional delegation, as well as others. We've also had plenty of opportunities to visit with them as well this Spring as the fight on PBM issues continues to gain traction on Capitol Hill. NCPA has been an extremely important partner for us in our legislative work the past few years, and we appreciate the opportunity to participate in this important event.

NASPA Summer Meeting

The National Alliance of State Pharmacy Associations, of which SDPhA is a member, held its summer meeting during the annual APhA Meeting in March. State Association Executives continue to meet bi-weekly with APhA and NCPA through NASPA. In addition, to better assist and understand issues of priority to SDSHP, SDPhA now participates in the monthly ASHP policy calls as well.

PharmaCE Expo | Feb 3-5

We continue our work with the Iowa Pharmacists Association to promote the Midwest Pharmacy Expo, now called the PharmaCE Expo. It is a comprehensive event offering a great deal of excellent CE for pharmacists and technicians. In exchange for our promotion of the event, our pharmacists have access at a great rate to attend – another benefit for our members. The event has become more regional, with many states engaged. Go to <https://www.pharmaceexpo.com/> for more details on the 2024 event set for Feb. 9-10, 2024.

SDPhA Fall and Spring District Meetings

Spring District meetings are complete and all but one returned to an in-person format this year. Districts also made nominations for the state association board of directors, recognition and nomination of worthy pharmacists, sales reps, and technicians to be considered by the Executive Board for the awards presented at our annual meeting. The Spring meeting is the most important meeting of the year for districts, as the Fall meeting is optional. A few districts had some leadership changes – you can find those on the SDPhA website. Election of officers is just one of the important items district members addressed. Districts also made nominations for the state association board of directors, recognition and nomination of worthy pharmacists, sales reps, and technicians to be considered by the Executive Board for the awards presented at our annual meeting.

SDPhA Board Retreat

The SDPhA board held its annual retreat June 3-4. The board always uses this time together to tackle some of the association's biggest tasks, such as strategic planning and legislative goals for the coming year, continuing education opportunities and agenda items for the annual meeting and convention, setting the budget, and selection of annual award winners.

EDUCATION, COMMUNICATION, PUBLIC AFFAIRS AND PROFESSIONAL RELATIONS

Continuing Education

The Association continues to focus on providing quality continuing education for practitioners. SDPhA continues to work with the SDSU College of Pharmacy to bring you interesting continuing education opportunities at the annual convention and throughout the year. We have also been engaged sometimes to help pharmaceutical companies get the word out on local opportunities for informative programs.

Reaching Out

The Association prepares and delivers Legislative and Association Updates, CE and pharmacy-related information at Fall and Spring district meetings, in addition to delivering a variety of educational programs at each Annual Convention. The

Association continues to work with student pharmacists on the American Pharmacists Month campaign, which helps bring awareness to the state about all pharmacists can do, and how patient care is improved with a pharmacist engaged. SDPhA previously provided SDSU students a grant for, and continues to assist with, pieces related to the, “More Than a Count” campaign. This campaign showcases the profession and SDPhA utilizing traditional and social media platforms to engage both pharmacists throughout the state as well as members of the general public.

The South Dakota Pharmacist

Communicating with our members quickly and effectively is extremely critical to the success of the Association. The South Dakota Pharmacist continues a quarterly electronic distribution. You can also find it posted, including past issues, on our website. It always offers 1.5 hours of CE, and provides a source of communication for the association on rules, legislative issues and education that affect pharmacy practice.

Website Updates

The SDPhA website continues to evolve! Changes to the convention registration pages for both participants and sponsors to streamline the process proved successful for 2022. We’ve also updated the [COVID resource page](#), and added resource pages regarding [TRICARE](#) and [Pharmacist Wellbeing](#).

Another key change utilized more than 150 by our pharmacists this year during legislative session –the new and improved [Action Center](#). We contracted a company for this area – half the price of the old, and a product better suited to our website and how our pharmacists communicate with their lawmakers. The new process is clearly a success, and we’re excited about the customization this platform offers, and how it enhances our communication and messaging opportunities!

Social Media/Email Blasts

We continue to utilize and expand our social media footprint where appropriate. This presence is something we consider vital to our work of representing the pharmacy profession through advancing patient care, enhancing public awareness, and serving in the best interest of public health and pharmacy.

SCAPP | SDSU APhA – ASP CHAPTER

We continue to work closely with SDSU, and the student pharmacists. The student liaisons do an amazing job keeping us apprised of activities, and the SDPhA board remains committed to supporting the students in every way possible. In fact, this year the board voted to continue the increased dollar amount of SDPhA scholarships to SDSU students. Support also includes activities such as convention attendance (free of charge), rooms for convention and Legislative Days, and support for the Back-to-School Picnic, Pharmacy Days, and American Pharmacists Month activities. We believe these activities are an incredible investment in your association’s future. The student pharmacists worked extremely hard to assist us with the 2022 meeting, volunteering for everything from running the registration table to creating slide shows and providing technical support through the conference. We couldn’t appreciate them more! We also remain a resource for faculty whenever needed and collaborate on projects whenever possible.

ASSOCIATION MANAGEMENT ROTATION APPE

We are pleased to welcome Tara Jorgensen for an APPE in Association Management. Tara started with us in August. We appreciate the opportunity to work with student pharmacists who want to take a deeper dive into this unique field of management; learning the day-to-day operations, the complexities of running an association, and the many aspects unique to associations and legislative work. Tara has gotten a very honest picture of the balancing act of a one-person association office. Rotations prior to convention offer a unique look at how we lay the groundwork for legislation, work through the process of legislative summer studies, and plan conventions—and what happens when it all changes on a dime. We look forward to the opportunity to work with more students in the future.

OTHER OFFICE INFORMATION

- Developed and enhanced promotional materials on the importance of SD Pharmacists
- Provided outreach and shared information with new lawmakers regarding pharmacy
- Provided guidance on pertinent legislation, working with state lawmakers
- Updated educational materials to share with interested groups
- Acted in advisory and liaison capacities to other agencies, departments, associations
- Increased awareness, especially with lawmakers, regarding immunization activities available from pharmacies
- Developed documents for utilization of pharmacy, students, and technicians for Legislative Session, District Meetings, and other applications
- Worked with pharmacy students to share information and enhance networking opportunities
- Lobby our Congressional delegation to move national pharmacy legislation forward and share information on national issues that involve pharmacy
- Updated various policy materials

On a personal note, at least in my (Amanda Bacon's) tenure here, I am not sure there has ever been a more pivotal time for you to be involved in the association, and the work we do. I keep hearing a quote going around that is attributed to various people, but goes something like, "If you don't want to be in politics, you better get out of pharmacy..." Now, I want to make it clear that I'm certainly not asking anyone to abandon ship. Nor am I asking anyone to become a politician. But what I will say is at the federal and state level – I'm not sure there has been a more important time in the recent history of this profession for you to be informed, aware, and active in the promoting, protecting, and advancing of it. This holds true no matter your practice setting. It is also true that no matter your practice setting, SDPhA represents you. But to do that to the best of our ability, it is important that you engage with us. Just like you made time to attend this annual meeting, please attend your district meetings too. Get involved with us on social and email your state and federal lawmakers. There is a lot happening, both in our state, and nationwide, that you need to know, and should have a voice in. We are your voice – so make sure you show up to amplify it, and ensure the message is heard. We've Moved Mountains to get here. But it's far from the last hill to climb.

Finally, The SDPhA Board of Directors and Staff are pleased with the accomplishments of 2022-2023 and are committed to continuing to provide services and representation for all pharmacists in South Dakota.

Respectfully submitted,

Amanda Bacon

A Helpful Smile In Every Aisle

July 24th, 2023

Executive Director
South Dakota Board of Pharmacy
4001 W Valhalla Blvd.
Suite 106
Sioux Falls, SD 57106

Re: Hy-Vee Pharmacy Fulfillment Center's 2023 Q2 Error Report

Hy-Vee Pharmacy Fulfillment Center (SD License #100-2084) respectfully submits our Quarter Two Error Report for 2023. This will encompass dates ranging from April 1st to June 30th, 2023. All prescriptions dispensed through our Automatic Distribution Dispensing System (ADDS) from the Hy-Vee Pharmacy Fulfillment Center are monitored through the Pharmacy Quality Commitment Program and are reflected in the error report. The error report for this quarter is listed below.

Errors that reached the patient are specifically highlighted as well.

Q2 2023 Errors

Total Scripts filled: 136,069
Logged Errors: 26

Q2 2023 Reached Patient

- Two errors in total reached the patient.
- Both were incorrect quantities. Both were handpicked by a pharmacy technician and approved by the pharmacist at verification.
 - o The first item was a migraine medication that was picked for an incorrect quantity and subsequently approved by a pharmacist at verification incorrectly.
 - o The other item was an insulin prescription. The patient was shorted a full box of pens. The store took care of the patient.
- All staff directly involved in the quantity errors were directly counseled and retrained where necessary.

Hy-Vee, Inc.

5820 Westown Parkway: West Des Moines. Iowa 50266
Phone (515) 267-2800

A Helpful Smile In Every Aisle

Error Summary/Proactive Training Measures:

The focus of the Hy-Vee Pharmacy Fulfillment Center in Sioux Falls remains on two areas of Incorrect Quantity and Sortation Errors. We have retrained staff at sortation; as well as having two support staff employees verify the total quantity of orders. We also added notes to the unit of use area indicating pack sizes.

Hy-Vee continues to remain vigilantly focused on improvements to error reduction within our pharmacies wherever possible. Please let us know if you have any questions on the contents of the quarter's data. Thank you.

Respectfully submitted,

Judith Zachariasen, PharmD

Scott Gregg
Community Health Services
Department of Health

September 8, 2023

Dear Mr. Gregg,

Thank you for the opportunity to provide you information regarding the feasibility of the Board of Pharmacy moving into the Sioux Falls One-Stop building.

Due to the anticipated increase of an estimated 271% for the Board of Pharmacy's rent, the Board of Pharmacy is respectfully requesting to not participate in moving its offices to the Sioux Falls One Stop building. Moving to the new site will require the BOP to increase fees over and above a level with which the legislature would be comfortable doing in 2026, to take effect in 2027, and the likelihood of needing to subsequently continue to request increases every few years. We have a bill to introduce this year just to survive, because we are nearly in deficit spending due to being told to spend our assets down, events beyond our control, and increased costs.

Fiduciary responsibility and accountability core Board member responsibilities. Board members are charged with the responsibility of making informed decisions to maintain the Board's fiscal viability. At its June meeting, members were provided the annual budget and discussed the anticipated costs and financial projections for the Board due to the fee increase legislation discussion. The Board agreed that we needed to raise fees and keep costs down.

When provided with the anticipated costs of the One Stop, they were not favorable. I will ask for a vote on this at our September 14, 2023 meeting. See graphs below. As a result of learning of the increased cost, the Board requests that the office not move to the new location for the following reasons:

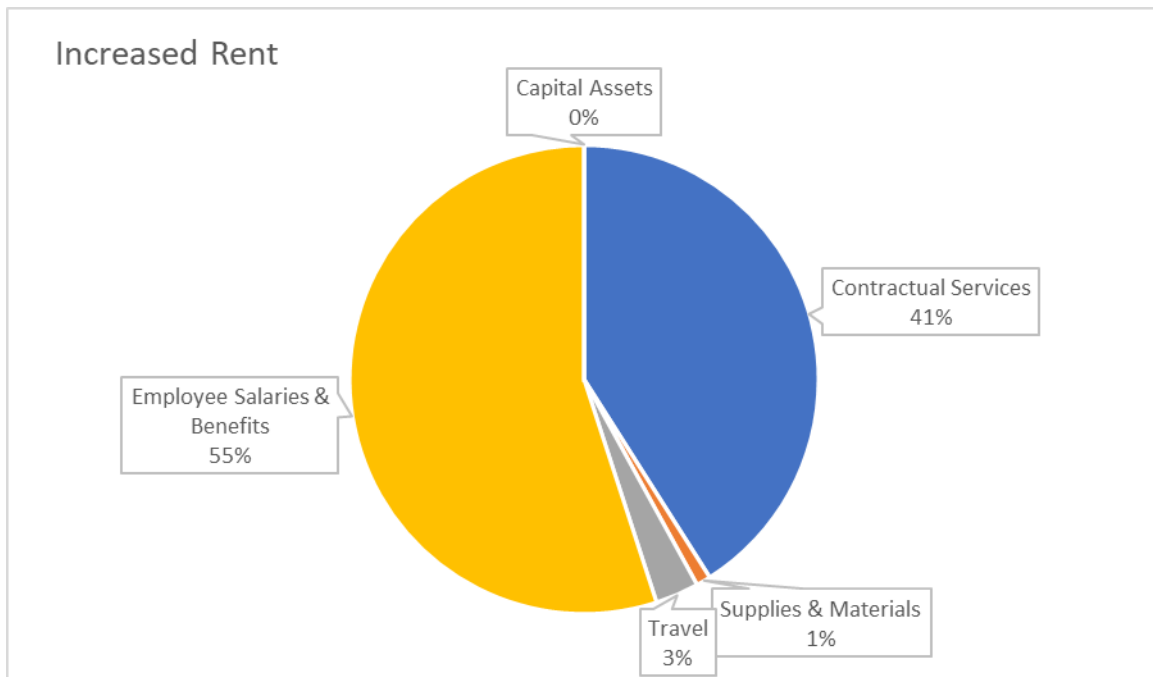

- Increase of approximately 271% for rent at the new location;
- Added costs for moving and purchasing necessary furniture for the new space;
- Having more square feet and not needing more space; and
- Anticipated loss of revenue due to FDA's submission of National Wholesaling Licensing Standards, which may cause us to lose wholesale licenses to the FDA.

The Board of Pharmacy respectfully requests to opt out of moving our office to this new location. Please contact me with questions.

Kindest Regards,

Kari Shanard-Koenders, R.Ph., M.S.J., Executive Director
Kari.shanard-koenders@state.sd.us

BOP Financial Projection

- Potential loss of revenue due to changes to wholesale or other drug distributors and 503B outsourcing facilities

- 5% expense increase year over year
- New PDMP debt – \$25,000 per monthly = \$300,000/yr
- If legislation passes, may be an increase in revenue, but cannot be sure it will pass, increased revenues of approximately \$340,000 in 2025 were added to chart
- We will still be in a negative position with the additional \$104,234 in rent

DATE: September 14, 2023

WHAT: Board Policy Statement # 23-09-14

WHY: UPDATED USP<795>, USP <797>, USP <800>, AND USP <825> CHAPTERS WILL BE ENFORCABLE ON NOVEMBER 1, 2023.

INTRODUCTION:

Currently, our administrative rules of South Dakota, ARSD 20:51:31, call on specific USP <797> regulations to be followed for sterile compounding using the 2008 USP <797> chapter.

USP has published new chapters for USP <795> Pharmaceutical Compounding – Nonsterile Preparations, USP <797> > Pharmaceutical Compounding – Sterile Preparations, USP <800> Hazardous Drugs – Handling in Healthcare Settings, and USP <825> Radiopharmaceuticals – Preparation, Compounding, Dispensing, and Repackaging. These new chapters which were published on November 1, 2022, will be enforceable on November 1, 2023.

GUIDELINES:

The board expects pharmacies to adhere to all applicable new chapters outlined in USP <795>, USP <797>, USP <800>, and USP <825> published in 2022 in your pharmacy practice setting.

Until the rules can be updated this policy statement shall serve in the interim to enforce the new USP chapters outlined above for compounding of medications in South Dakota.

The new USP chapters require an online subscription to USP. The link: <https://online.uspnf.com/uspnf> can be utilized to create an account and to access the full USP Compounding Compendium Chapters.

TENATIVE BOARD APPROVAL/ADOPTION: September 14, 2023

August 31, 2023

To the South Dakota Board of Pharmacy:

My name is Claire French, and I am a licensed pharmacist in Ontario, Canada registered in good standing with the Ontario College of Pharmacists. My fiancé (an American citizen) and I are moving to South Dakota in the near future. However, there are several requirements and exams that Canadian trained pharmacists must complete before becoming eligible for registration in the state. These requirements may take years to complete, however I currently have the appropriate education, skills and experience to provide pharmaceutical care services in South Dakota.

Regarding my experience as a pharmacist, I graduated from the University of Waterloo's pharmacy program in 2022 with a Doctor of Pharmacy degree. This program has been awarded Full Accreditation by the Canadian Council for Accreditation of Pharmacy Programs (CCAPP). I also successfully passed the Pharmacy Examining Board of Canada's written and practical exams to be able to practice in Ontario. Currently, I work in a community pharmacy where I provide a full scope of professional pharmaceutical care services in addition to dispensing and counselling activities. My regular tasks and duties include medication reviews with patients resulting in recommendations to prescribers, administration of a variety of injectable medications (vitamin B12, denosumab, vaccines, etc.), independent assessments and prescribing for minor ailments (conjunctivitis, UTIs, etc.), and smoking cessation consults. I can also adjust medication doses, directions and dosage forms based on a variety of patient factors to increase patient safety and adherence to therapy.

Considering my qualifications, I am proposing that the Board grant an exception to the current registration pathway in South Dakota for Canadian pharmacists like me regarding the FPGEC certification, NAPLEX exam and internship requirements. The licensure of Canadian pharmacists is accelerated in other states like Michigan, Maine, New Hampshire and most recently, North Dakota. In these states, only the jurisprudence exam is required if the pharmacist is a graduate from a CCAPP university and currently practicing in their province. I am proposing to expedite licensure in South Dakota to the extent as reasonably possible as I believe I am fully qualified and competent to provide pharmaceutical care services in the state. I also understand from Governor Kristi Noem's "Freedom to Work" workforce recruitment campaign that the state is seeking licensed professionals to relocate to South Dakota to meet the state's ever-growing need for healthcare related services.

I am available at your first convenience to provide more information regarding my qualifications and experience or to speak to the Board. I can be reached by email at claire.a.french@gmail.com or by telephone at (613)827-3918.

Sincerely,

Claire French, *PharmD., B.Sc., RPh.*
