OVERNIGHT EXPRESS MAIL

Mr. Larry Janes
Executive Director
South Dakota 811
5536 Doubletree Road
Rapid City, SD 57702

Dear Mr. Janes:

On November 11, 2018, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of South Dakota's enforcement of its excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D—State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of South Dakota's excavation damage prevention law is "adequate." PHMSA appreciates the State of South Dakota's success in developing and sustaining an effective damage prevention enforcement program.

As you may be aware, excavation damage continues to be a leading cause of pipeline failures, a number of which have resulted in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

In closing, PHMSA appreciates your dedication to safety and encourages the South Dakota 811 to continue to support several damage prevention outreach initiatives. Should you have any questions regarding this letter, please contact Dr. Christie Murray, our Director of Outreach and Engagement, at (202) 366-4996 or by email at Christie.Murray@dot.gov.

Sincerely,

Massoud Tahamtani
Deputy Associate Administrator, Policy and Programs
Office of Pipeline Safety
