PSAP Project Funding Application

Name of Project Location (physical address of where equipment is located/where funds will be used):

911 Vander Horck St- Marshall County 911

Project Description:

Adjusted cost of original request.

Marshall County 911 was granted $89,512 in the original request. Increased cost & a different DCB Tunnel capable of the data transmissions between PSAPs increased the cost from the original amount to $91,249.84 (+ $1,736.98).

An oversight on the original request/project was to be capability of recording the additional channels/radios added to our system. The cost to add the 4 additional radios is $3,191.40 (Estimate #3787- attached).

Project Funding Request Amount:

Total- $94,441.24 (+ $4,928.38 from original amount)

How does this project help work towards priorities outlined by the SD 911 Coordination Board.

Same as original application.

118 W Capitol Avenue • Pierre, South Dakota 57501
P: 605.773.3264
F: 605.773.3108
W: DPS.SD.GOV
E: SD911Coordinator@state.sd.us
State 9-1-1 Coordination

Describe how this project addresses operational, efficiency or interoperability needs:

Same as original application.

Does your agency have local funding available and can you sustain this project post grant funding?

Not immediately available. The increase of the original amount has already been paid by the County but has taken away from other budgeted projects. The additional recording request does not have availible budget to be completed.

What are the goals and objectives of the project?

Same as original application. Additional recording allows for ability to review calls on the new 'additional' channels that are utilized for communication/coordination.

Provide detail on the timeline for completion of the project, milestones, deliverables and dates:

Vendor will be able to completed this as their schedule allows- 1 month? Requires minimal hook-ups, but configuration and system set up would be determining factors on specific timeline.

Include any other information that may be helpful to support your project funding application, if any:

Name of Applicant	Agency Administrator	Date

Description	Qty	Price	Total
Quote to add recording lines to the Higher Ground Recorder			
NG Capture 911 Channel License	4	458.35	1,833.40
SHOP SUPPLIES	1	40.00	40.00
Mileage	180	2.35	423.00
Installation and set up. On site and off site support.	1	895.00	895.00
This is for IP recording. If you want analog recording it would be an additional $1677.00 for an analog card that needs to be installed in the recorder.			
These additional 4 lines of recording will increase the maintenance cost by about $75.00 per line.
