

Ombudsman Program Simulation

RealCare™ Geriatric Simulator

This award-winning wearable RealCare™ Geriatric Simulator enables users to personally experience a variety of age-related physical challenges such as stooped posture and restricted range of motion. The experience helps them develop a unique sensitivity and understanding toward the elderly. The aging simulator includes a sensitivity suit, walker, storage case as well as curriculum.

Notice! If purchasing multiple units call 800.830.1416 to receive promotional pricing.

Soft Skills Program for Caring for Patients with Intellectual Disabilities, Mental Illness, or PTSD

Soft Skills Program for Caring for Patients with Intellectual Disabilities, Mental Illness, or PTSD

Use this soft skills program to introduce participants to caring for patients with intellectual disabilities, mental illness, and PTSD. Additionally, help them to develop soft skills strategies for meeting those needs. This hands-on kit includes Dementia and Auditory Hallucination Simulators as well as curriculum, scenario cards, and student workbooks.

Hemiplegia Simulator

The Hemiplegia Simulator is a wearable simulator that enables users to experience paralysis on one side of the body (hemiplegia). This helps them to gain an understanding of patients' or family members' disabilities due to stroke or similar conditions. It includes a curriculum that addresses the physical effects of hemiplegia, plus teaching tools like presentation slides and assessment activities.

Geriatric Sensory Impairment Kit

Use the Geriatric Sensory Impairment Kit to help students understand common sensory challenges faced by elderly patients and develop geriatric nursing skills. This kit includes the Hearing Impairment Simulator and Geriatric Arthritis Simulator, as well as the Geriatric Tremor Simulator.

Pressure Injury Simulation Kit

The Pressure Injury Simulation Kit (formerly known as Decubitus Ulcer Simulation Kit) is a hands-on treatment simulator. It contains realistic, lifelike models of stages 1 through 4 pressure injuries as well as one heel wound pressure injury. The injury models are pliable and lifelike and can be placed on human or manikin skin. Additionally, incorporate the included curriculum for a complete experience.

Geriatric Skin Conditions Simulation Set (9 skin conditions)

The Geriatric Skin Conditions Simulation Set is a one-of-a-kind aging skin condition training tool. This kit includes 9 realistic models of common geriatric skin conditions. Students can adhere these models to human as well as manikin skin and examine the detailed tissue.

~~\$1,000.00~~ \$1,275.00

Elder Abuse Training Kit

Introduce students to five types of elder abuse with the Elder Abuse Training Kit. This unique kit addresses risk factors, how to identify and report abuse, and how to prevent it when possible. Apply the included skin condition models to human or manikin skin to create realistic scenarios. The skin condition models plus scenario cards, student workbooks and curriculum make this an in-depth experience for teaching empathy and care.
