Adult Education in the Black Hills

Diversity and wrap around services

40% of the student population self identifies being Native American. Over 20% of the population identifies with another minority or two ethnicities.

Over 80 Community Based Organizations are part of the wrap around services.

Students who gain assistance from within the community are 60% more likely to go on to postsecondary education or training.

Self-disclosed disability data:

Twenty-nine percent (29%) of current students have self-disclosed a disability.

Only 10% of those have all the required documentation to obtain accommodations.

Accommodations can be limited but there is a process to review.
