

<b>Enforcement</b>	<b>Income</b>	<b>Paternity</b>
Enhanced enforcement authority	Income maximum for receiver of support; no support ordered if above threshold	Mandatory DNA testing and names on birth certificate
Prohibit restriction/revocation of drivers licenses	Lack of consequences for working under the table	Support giving latitude to make a finding of paternity
Prohibit restriction/revocation of drivers licenses	Overtime should not be counted, only base pay	Support adjudication of paternity change
Enforcement of health insurance requirements	Child support deducted pre-tax; receiver should pay tax on child support	
Additional enforcement	Stay-at-home parents calculated at minimum wage	
Prohibit restriction/revocation of drivers/hunting/fishing licenses	Take into consideration jobs/income during marriage	
	Receivers must have job equivalent to ability	
	No child support if make over \$60,000 unless payor makes more than double	
	Base on net income with monthly living expenses	

	Count same number of months of income for each parent	
	Income tax deduction for paying child support	

<b>Custody/Shared Parenting</b>	<b>Guidelines</b>	<b>Obligation Amounts</b>
Start with 50/50 custody	No increase	Take other children in household into account when determining obligation
No child support if 50/50 custody	Don't increase self-support reserve	Abatement by informal agreement
No child support if 50/50 custody	Increase guidelines if no other children in home and payer is not in school	Take other children in household into account when determining obligation
Mother should not automatically get custody	Option 1	Obligation should not be required if weekly wage is affected by weather; no liability/arrears for that week
No 50/50 custody	Increase for inflation	Standard price per child
Remove 180 day threshold for shared parenting	Receivers without a job should not get increase	Parent's history of providing for family during marriage should be considered
Proportional adjustments at lower parenting time level	No increase	If separate bank accounts for 2 years, no child support
If income within \$30,000 of each other and not in poverty, there should be no child support unless lower income parent has child more than 50%	No increase	Needs based
No child support if 50/50 custody		Only for stay-at-home parents during marriage; ends after 5 years or get job

Remove 180 day threshold for shared parenting		Insurance should not be factored in
Remove 180 day threshold for shared parenting		Minimum amount on all orders
Couple custody and child support hearings		TANF pass through
Equal sharing of all expenses		TANF pass through
		TANF pass through
		TANF pass through
		TANF pass through

<b>Accountability</b>	<b>Prior Period Support</b>	<b>Emancipation</b>
Child support into specific account only for child's expenses	Eliminate for non-professionals; 3 years for professionals	Leave school attendance language
Parents alternate in claiming child on taxes	Calculate at current minimum wage if unable to work	If child not in school, then there should be no support
Receiver should be accountable to use child support for child	Date of application	Set at age 18
Payer should get child tax credit	One year or less	Don't change from current
Child support into specific account only for child's expenses		Don't change from current
Can't use child support for children other than named in order		
Child support into specific account only for child's expenses		
Child support as reportable income		
Child support into specific account only for child's expenses
