### **Class A**

#### **Criteria for Class A**

1. The seriousness or significance of the offense.
2. The frequency or volume of its occurrence.
3. The prevalence of the offense nationwide.
4. The probability of the offense being brought to law enforcement's attention.
5. The likelihood that law enforcement is the best channel for collecting data regarding the offense.
6. The burden placed on law enforcement in collecting data on the offense.
7. The national statistical validity and usefulness of the collected data.
8. The national UCR Program's responsibility to make crime data available not only to law enforcement but to others having a legitimate interest in it.

The crimes are counted as follows: for a Crime Against person, one offense is counted for each victim; Crime Against Property, one offense for each distinct operation is counted (except Motor Vehicle Theft, where one offense is counted for each stolen vehicle); and for a Crime Against Society, count one offense for each violation.
