The Office of Sheriff Tyler Appel

FAIRNESS

INTEGRITY

RESPECT

EXCELLENCE

To whom it may concern,

The Roberts County Sheriff's Office and Roberts County 911 hereby express full support for the Marshall County 911 Radio Expansion & Redundancy Project and respectfully request consideration for funding of this initiative.

Marshall County and Roberts County Public Safety Answering Points (PSAPs) operate as backup centers for one another in the event of an outage, emergency, or system failure requiring call transfer and operational continuity. This partnership is critical to ensuring uninterrupted emergency communications services for both jurisdictions.

The proposed project would enhance and strengthen this shared capability by improving redundancy between the two PSAPs. The addition of updated equipment, software, and system integration will provide increased reliability, operational efficiency, and resilience during critical incidents.

The Roberts County Sheriff's Office and 911 fully support this effort and recognize its importance in maintaining dependable emergency communications services for our communities.

Sincerely,

Tyler Appel
Sheriff
