SOUTH DAKOTA PART C

It's time to rethink how we're serving students with disabilities and their families

WHAT IS THE SSIP?

Multi-year, achievable plan that:

- *Increases capacity of EIS programs to implement, scale up, and sustain evidence-based practices
- *Improves outcomes for children with disabilities (and their families)

OSEP DIRECTION TO DEVELOP A SYSTEM FRAMEWORK TO GUIDE STATES IN THEIR SSIP DEVELOPMENT

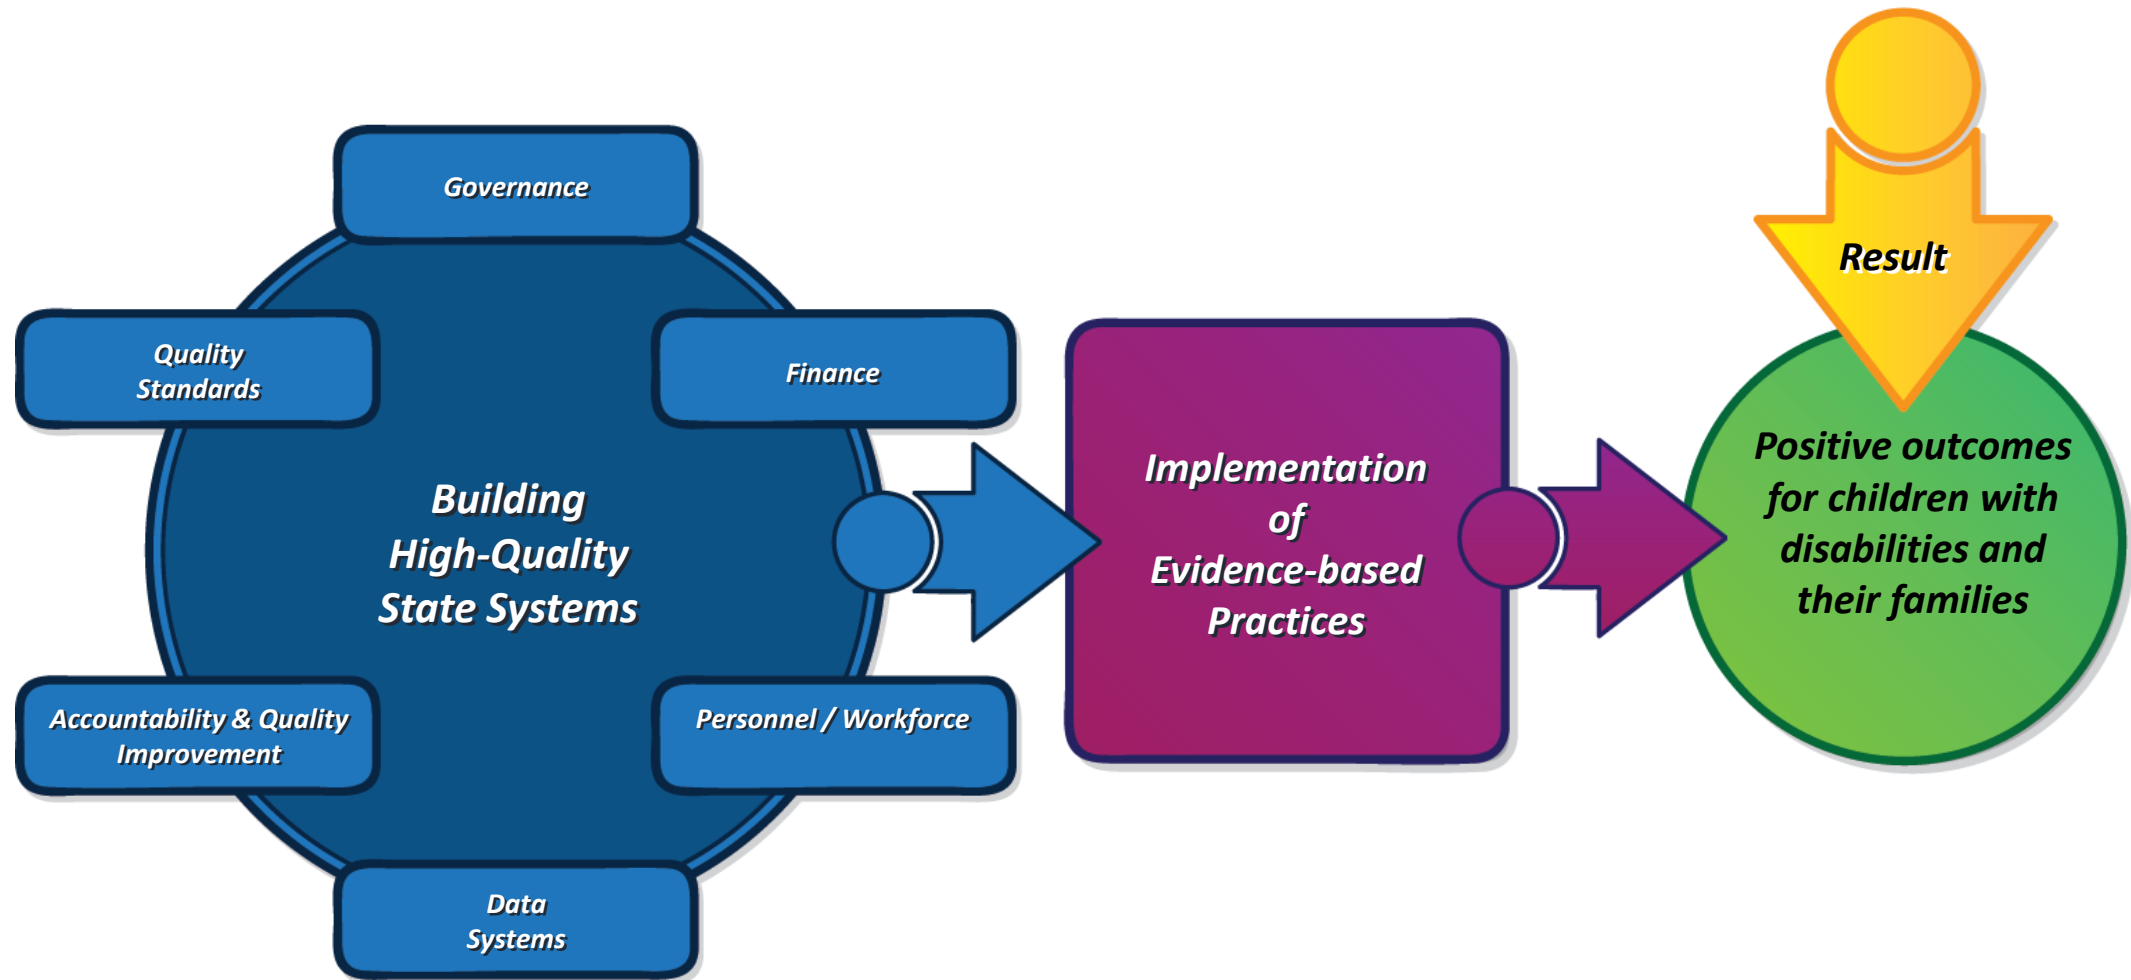

Purpose: to guide states in evaluating their current Part C/619 system, identifying areas for improvement, and providing direction on how to develop a more effective, efficient Part C and Section 619 system.

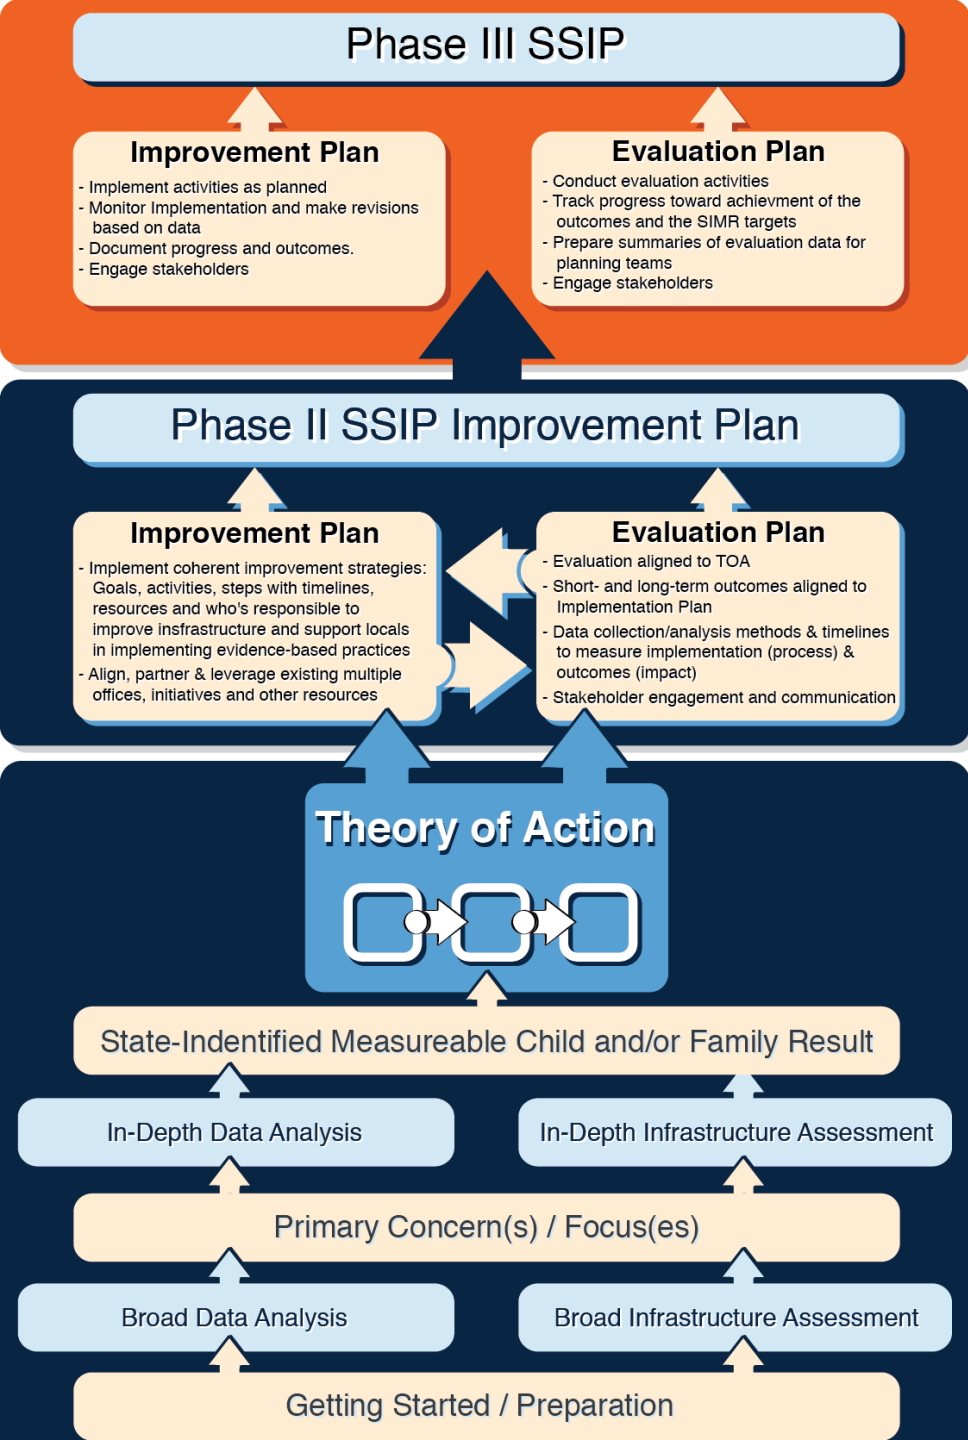

Audience: the key audience is state Part C and state Section 619 coordinators and staff, with acknowledgement that other key staff and leadership in a state will need to be involved.

Development: developed collaboratively with the field (state teams, TA partners, and national experts) through a 2-year iterative process.

What infrastructure must be in place to support implementation of effective evidence-based practices?

How did we get there?

SSIP Theory of Action

Strands of Action	If the State.....	Then regionally.....	Then	Results
