

**Statewide Independent Living Council
State Plan for Independent Living (SPIL) Committee
Preparing for the August 5, 2026 Meeting**

Disseminated July 22, 2026

SPIL Committee Update and Request for Additional Input

Input has been received from several committee members; however, additional feedback is needed to ensure broad representation of perspectives as we continue developing the SPIL.

To date, staff has received and compiled input on Goals 1, 2, and 3. The attached document incorporates the objectives, indicators, and recommendations submitted so far and is being shared with the full committee for review and consideration.

Please Review the Attached Draft

As you review the document, please consider:

- Are the proposed objectives aligned with the goal?
- Are there additional objectives that should be considered?
- How should success be measured?
- Are there independent living priorities, activities, or outcomes that are missing?

Additional Input Requested

Committee members who have not yet submitted suggestions are encouraged to do so. Members who have already provided input are also welcome to propose additional objectives, indicators, revisions, or refinements.

Please submit comments by **July 31, 2026** to allow time for staff to compile and distribute updates prior to the August 5 committee meeting.

If possible, please use **"Reply All"** so members can review and build upon one another's ideas.

August 5 SPIL Committee Meeting

The August 5 meeting will focus on reviewing the draft objectives and indicators, discussing committee recommendations, identifying areas where additional development is needed, and working toward consensus on the framework that will guide development of the 2028-2030 SPIL.

Thank you for your continued participation in this process.
