Call to Order, Pledge of Allegiance, and Roll Call:

The South Dakota Board of Education Standards (BOES) was called to order by President Sly at approximately 10:01 a.m. CT.

A quorum of board was present.

Adoption of Agenda:

Motion Heineman second by Olsen to adopt the July 9, 2021, agenda. Roll call vote. All present voted in favor. Motion carried. Voting aye: Heineman, Olsen, Nebelsick, Westra, Willard, Guffin and Sly.

Medical Cannabis Rules – Revisions

Diane Roy, General Counsel, DOE gave an update on a few pertinent events that have occurred since the board met in May and approved the Medical Cannabis and School rules:

- 43 (1) The Department of Health’s (DOH) Medical Cannabis rules are still in draft form and
44 they are not set to go into effect until late October this year, that may affect the Medical
45 Cannabis and Schools rules before you today, and depending on any future legislative
46 actions taken, we may need to revise these rules again.
- 47 (2) The Marijuana Opportunity Reinvestment and Expungement Act (MORÉS Act) was
48 recently reintroduced in Congress, –which if passed, would federally legalize cannabis by
49 removing it from the federal Controlled Substances Act.
- 50 (3) June 23, 2021, the South Dakota Board of Regents considered how the Medical
51 Cannabis Law would affect their policies as they apply to the state’s higher education
52 campuses. Their June agenda states that the proposed revisions to their policies solidify
53 the Board’s prohibition on the use or possession of marijuana, including medical
54 marijuana, on property owned or controlled by the Board or at events hosted or
55 sponsored by the Board of any of its institutions. It further states the policy revisions
56 ensure compliance with federal authority.
- 57 (4) July 1, 2021, the Medical Cannabis Law 34-20G went into effect, although as Roy stated
58 earlier, the DOH administrative rules are not in effect until October.
- 59 (5) The South Dakota Highway Patrol issued program implementation guidance regarding
60 the enforcement of those in possession of medical cannabis after July 1, 2021. Specific
61 provisions of the guidance can be found on medcannabis.sd.gov.
- 62 (6) July 1, 2021, the Flandreau Santee Sioux Tribe opened the first cannabis dispensary in
63 South Dakota and is issuing their own ID cards.

64 Roy went on to update the board on the status of these rules in the rule-making process. At the
65 May 17, 2021, board meeting, the Medical Cannabis and Schools Rules were presented and
66 passed unanimously. The rules were then presented at the June 7, 2021, Interim Rules Review
67 Committee (IRRC) hearing. The IRRC reverted the rules and requested amendments from DOE.
68 DOE was not required to bring the amendments back to the BOES but did so to ensure full
69 transparency in the process and to allow education stakeholders to weigh in before going back
70 to IRRC.

71
72 Roy added that as per SDCL 1-26-4.10 a new, formal public hearing and public comment period
73 is not required with reverted rules. The board will review the revised draft today and if
74 approved the rules will be resubmitted to the IRRC for hearing on July 19, 2021. Today’s board
75 meeting allows the BOES to act on the proposed amendments from DOE within the rules
76 process.

77
78 Amanda LaCroix, Assistant General Counsel, DOE presented the specific revisions to the rules.
79 Some of the changes are the chapter titles from “General provisions” to “Mandatory district
80 provisions,” and “District discretion” to “Permissive district policy”. The addition of a definition
81 of “school district”, that only public school districts, not non-public schools, will be affected by
82 the rules. The word marijuana was changed to cannabis, and file was changed to educational
83 record to have consistent language. Other revisions to the rules include that school districts
84 may provide storage or administer medical cannabis to a student and school personnel may

85 volunteer to store and administer medical cannabis in a non-smokable form to any student
86 cardholder, and that policies may also set parameters for student participation in school-
87 sponsored activities or educational tasks that may put the student or others in an unsafe
88 environment or potentially cause disruption. Nothing in the rules requires school personnel to
89 administer medical cannabis.

90

91 LaCroix stated that these revisions are based on IRRC comments and proposed amendments.

92

93 Board questions and discussion

94

95 **Public Comment**

96

97 There was no public comment.

98

99 Motion by Heineman second by Guffin to approve the reverted Medical Cannabis and Schools
