Introduction to Architecture and Construction

Career Cluster	Architecture and Construction
Course Code	17006
Prerequisite(s)	None
Credit	.5 - 1
Program of Study and	Intro to Architecture and Construction is the recommended prerequisite for the three career
Sequence	pathways in Architecture and Construction: 1) Architectural Drafting Pathway 2) Cabinetry Pathway,
	and 3) Residential Construction Pathway
Student Organization	SkillsUSA
Coordinating Work-Based	Tours, guest speakers, job shadowing
Learning	
Industry Certifications	None
Dual Credit or Dual	None
Enrollment	
Teacher Certification	Architecture & Construction Cluster Endorsement; Building Trades Endorsement;
Resources	None

Course Description:

This course will prepare students to delve into the architecture and construction industry. It covers all three construction career pathways offered, including architecture/drafting along with cabinetry and building construction. Students will explore many different topics where they will be able to complete hands on activities to enhance the learning process.

Program of Study Application

Intro to Architecture and Construction is the recommended prerequisite for the three career pathways in Architecture and Construction:

• Architectural Drafting Pathway

Course: Introduction to Architecture and Construction

- Cabinetry Pathway
- Residential Construction Pathway

Course Standards

Indicator# IAC 1 Explore the different career opportunities involved in the architecture and construction industries.

Webb Level	Sub-indicator	Integrated Content
Two	IAC 1.1 Compare career possibilities in the drafting industry.	
Apply		
Two	IAC 1.3 Research career opportunities in the architecture and	
Apply	construction fields.	

Indicator# IAC 2 Introduce safety concepts in the architecture and construction industries.

Webb Level	Sub-indicator	Integrated Content
Two	IAC 2.1 Apply general shop safety principles	
Apply		
One	IAC 2.2 Identify job site and career safety concepts	
Identify		
One	IAC 2.3 Define OSHA (Occupational Safety Health Administration) and	
Define	its role in the construction industries	
Two	IAC 2.4 Apply general hand and power tool safety procedures	
Apply		

Indicator# IAC 3 Apply basic math principles used in the architecture and construction industries.

Webb Level	Sub-indicator	Integrated Content
Two	IAC 3.1 Demonstrate proper use of appropriate math skills	

Course: Introduction to Architecture and Construction

Demonstrate		
Two	IAC 3.2 Demonstrate proper measuring and layout skills	
Demonstrate		

Indicator# IAC 4 Recognize the materials used in the architecture and construction industries.

Webb Level	Sub-indicator	Integrated Content
One	IAC 4.1 Identify wood species and engineered building materials.	
Identify		
One	IAC 4.2 Recognize proper application of fasteners, adhesives, and	
Recognize	hardware.	
One	IAC 4.3 Explore new upcoming materials used in building industry.	
Explore		

Indicator# IAC 5 Examine Basic drafting skills used in architecture and construction.

Webb Level	Sub-indicator	Integrated Content
One	IAC 5.1 Recognize basic drafting terms and abbreviations	
Recognize		
Two	IAC 5.2 Differentiate between different drafting styles	
Differentiate		
Two	IAC 5.3 Identify different aspects of blueprints/project plans to show a	
Demonstrate	working knowledge of specifications.	
Two	IAC 5.4 Classify the different styles of residential architectural structures	
Classify		

Indicator# IAC 6 Display skills needed in architecture and construction industries.

Course: Introduction to Architecture and Construction

Webb Level	Sub-indicator	Integrated Content
Two	IAC6.1 Apply proper measuring and cutting techniques to perform job related	
Apply	tasks	
Two	IAC 6.2 Display a working knowledge of tools and equipment used in the	
Display	industry	
Two	IAC 6.3 Construct a project using the assigned design process	
Construct		
Two	IAC 6.4 Demonstrate necessary job skills needed in architecture and	
Demonstrate	construction industries	

4 Proposed 2020-2021

Construction Trades I

Career Cluster	Architecture and Construction
Course Code	17002
Prerequisite(s)	Introduction to Architecture and Construction
Credit	.5 - 1
Program of Study and Sequence	Foundation Courses, Introduction to Architecture and Construction, Construction Trades I, Residential Construction, Capstone
Student Organization	SkillsUSA
Coordinating Work-Based Learning	This standard includes Workplace Tours, Service learning and Apprenticeship
Industry Certifications	None
Dual Credit or Dual Enrollment	TBD
Teacher Certification	Architecture & Construction Cluster Endorsement; Construction Pathway Endorsement; Construction Trades I Endorsement;
Resources	

Course Description:

Students will gain insight into the career within construction by developing practical skills such as safety on the jobsite, construction math, use of hand/power/pneumatic tools, basic residential blueprint reading, basic land surveying techniques, building construction, plumbing, electrical, concrete, employability skills and career exploration required to succeed in the construction industry.

Program of Study Application

This is the third course in the suggested sequence of the Residential Construction Program of Study. It is recommended that it is preceded by (1) Foundation Courses, (2) Introduction to Architecture and Construction, and followed by (4) Construction Trades II-Residential and (5) Capstone Experience.

Webb Level	Sub-indicator	Integrated Content
Level 2 Skill/ Concept	CT1.1 Identify and demonstrate the proper industry safety standards	

Indicator # CT 2 Utilize appropriate industry math skills and formulas

Webb Level	Sub-indicator	Integrated Content
Level 2 Skill/ Concept	CT2.1 Understand and demonstrate basic math skills and formulas	

Indicator # CT 3	Identify and correctly	y use appropriate hand	, power, and pneumatic tools
------------------	------------------------	------------------------	------------------------------

Webb Level	Sub-indicator	Integrated Content
Level 2 Skill/ Concept	CT3.1 Demonstrate safe and proper use of hand tools.	

Level 2 Skill/ Concept	CT3.2 Demonstrate safe and proper use of power tools	
Level 2 Skill / Concept	CT3.3 Demonstrate safe and proper use of pneumatic tools.	

Indicator # CT 4 Understand blueprint reading and perform basic survey techniques

Webb Level	Sub-indicator	Integrated Content
Level 3 Strategic Thinking	CT4.1 Demonstrate how to read blueprints.	
Level 3 Strategic Thinking	CT4.2 Demonstrate basic survey techniques.	

Indicator # CT 5 Apply basic organizational, spatial, structural and construction principles of carpentry

Webb Level	Sub-indicator	Integrated Content
Level 3 Strategic Thinking	CT 5.1 Demonstrate the understanding of the building process by the building of a construction project.	

Indicator # CT 6 Study principles, standards and applications of plumbing

Webb Level	Sub-indicator	Integrated Content
Level 1 Recall	CT6.1 Define safety procedures for plumbing.	
Level 2 Skill/ Concept	CT6.2 Distinguish pipe sizes, fittings, adapters, and coupling.	
Level 3 Strategic Thinking	CT6.3 Demonstrate the use of plumbing materials.	

Indicator # CT 7	Employ	/ basic	knowle	dge and	l metho	ds of e	electrica	wiring
		00010		anc ano				

Webb Level	Sub-indicator	Integrated Content
Level 1 Recall	CT7.1 Select electrical materials considering safety.	
Level 2 Skill/ Concept	CT7.2 Identify electrical materials.	
Level 3 Strategic Thinking	CT7.3 Illustrate uses of electrical materials.	

Webb Level	Sub-indicator	Integrated Content
Level 1 Recall	CT8.1 Identify safe practice associated with concrete materials	
Level 3 Strategic Thinking	CT8.2 Calculate the various required ingredients used in concrete.	
Level 4 Extended Thinking	CT8.3 Employ application of concrete in different situations.	

Indicator # CT 8 Employ basic knowledge and methods of concrete technology

Indicator # CT 9	Student will	participate in	career ex	ploration	activities
	oradent with	participate in	cureer en		accivities

Webb Level	Sub-indicator	Integrated Content
Level 4 Extended Thinking	CT9.1 Research career opportunities in residential and commercial (including horizontal and vertical) construction.	

Construction Trades II- Residential

Career Cluster	Architecture and Construction
Course Code	17003
Prerequisite(s)	Introduction to Architecture and Construction; Construction Trades I
Credit	.5-1
Program of Study and	Foundation Course-Introduction to Architecture and Construction- Construction Trades I
Sequence	
Student Organization	SkillsUSA
Coordinating Work-Based	Shadowing, speakers, internships, apprenticeships
Learning	
Industry Certifications	OSHA 10
Dual Credit or Dual	TBD
Enrollment	
Teacher Certification	Architecture & Construction Cluster Endorsement; Construction Pathway Endorsement; Building
	Trades Endorsement
Resources	

Course Description:

Students will gain in depth knowledge of residential construction by identifying and demonstrating correct safety procedures, construction math, blueprint reading and basic surveying techniques. The student will also be able to identify building products, and safely and correctly use various hand/power/pneumatic tools. Concrete construction applications and construction of a residential house will be the main thrust of this course. The student will be able to frame floor, wall and ceiling/roof systems. Once the framing is complete the student will install windows and doors, apply thermal and moisture protection, apply exterior sheathing along with exterior siding and roofing material. Interior work will be performed by installing drywall, installing cabinets and conducting interior finish work. The concept of stair layout and construction will be incorporated in this class. Basic residential electrical and plumbing will be performed as it relates to the necessary requirements in the building process. The National Center for Construction Education & Research (NCCER) competencies/objectives are followed as a resource.

Program of Study Application

This is the fourth course in the suggested sequence of the Architecture and ConstructionR Program of Study. It is recommended that it is preceded by (1) Foundation Courses, (2) Introduction to Architecture and Construction, and (3) Construction Trades I; and followed by (5) Capstone Experience.

Course Standards

Indicator # CTIIR 1 Understand and apply industry safety procedures

Webb Level	Sub-indicator	Integrated Content
Level 1	CTIIR1.1 Demonstrate proper industry safety standards.	
Recall		

Indicator # CTIIR 2: Utilize appropriate industry math skills and formulas

Webb Level	Sub-indicator	Integrated Content
Level 3	CTIIR2.1 Understand and demonstrate basic math skills.	
Strategic		
Thinking		

Notes:

Indicator # CTIIR 3 Understand concepts of blueprint reading and perform basic survey techniques

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR3.1 Demonstrate how to read blueprints.	
Skill/		
Concept		
Level 3	CTIIR3.2 Demonstrate survey techniques and site layout.	
Strategic		
Thinking		

Notes:

Course: Construction Trades II

Indicator # CTIIR 4 Identify and understand wood building materials, fasteners, and adhesives

Webb Level	Sub-indicator	Integrated Content
Level 1	CTIIR4.1 Understand and demonstrate the use of wood building materials.	
Recall		
Level 1	CTIIR4.2 Understand and demonstrate the use of fasteners and adhesives.	
Recall		

Indicator # CTIIR 5 Identify and correctly use appropriate hand, power and pneumatic tools

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR5.1 Demonstrate safe and proper use of hand tools.	
Skill/		
Concept		
Level 2	CTIIR5.2 Demonstrate safe and proper use of power tools.	
Skill/		
Concept		
Level 2	CTIIR5.3 Demonstrate safe and proper use of pneumatic tools.	
Skill/		
Concept		

Indicator # CTIIR 6

Integrate concrete technology to achieve thorough construction background

Webb Level	Sub-indicator	Integrated Content
Level 3	CTIIR6.1 Understand and demonstrate the uses of concrete and reinforcing	
Strategic	materials.	
Thinking		

Indicator # CTIIR 7 Understand and perform framing of flooring, wall, ceiling and roofing systems

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR7.1 Understand and demonstrate framing of flooring systems	
Skill/		
Concept		
Level 3	CTIIR7.2 Understand and demonstrate framing of wall and ceiling systems.	
Strategic		
Thinking		

Course: Construction Trades II

Level 3	CTIIR7.3 Understand and demonstrate framing of a roofing systems.	
Strategic		
Thinking		

Indicator # CTIIR 8 Understand and demonstrate installation of windows and exterior doors

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR8.1 Understand and demonstrate installation of windows.	
Skill/		
Concept		
Level 2	CTIIR8.2 Understand and demonstrate installation of exterior doors.	
Skill/		
Concept		
Notes:		

Indicator # CTIIR 9 Identify and perform different exterior finishing methods

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR9.1 Understand and demonstrate installation of exterior finish.	
Skill/		
Concept		
Notos		

Notes:

Indicator # CTIIR 10 Identify and understand different roofing applications

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR10.1 Understand and demonstrate installation of roofing materials.	
Skill/	•	

Concept		
Notes:		

Indicator # CTIIR 11 Understand the importance of, and properly install, thermal and moisture protection

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR11.1 Understand and demonstrate installation of thermal and moisture	
Skill/	protection.	
Concept		

Indicator # CTIIR 12 Perform drywall installation and finishing techniques

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR12.1 Understand and demonstrate drywall installation.	
Skill/		
Concept		
Level 2	CTIIR12.2 Understand and demonstrate drywall finishing.	
Skill/		
Concept		

Indicator # CTIIR 13 Understand methods and complete interior finish work

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR13.1 Understand and demonstrate interior finishing.	
Skill/		
Concept		

Indicator # CTIIR 14 Understand the cabinet manufacturing process and install cabinets

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR14.1 Understand basic cabinet design and installation.	
Skill/		

Concept		

Indicator # CTIIR 15 Understand and demonstrate installation of stairs.

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR15.1 Identify the various types and parts of stairs.	
Skill/		
Concept		
Level 2	CTIIR15.2 Using appropriate math formula calculate the number and sizes of	
Skill/	risers and treads for a stairway.	
Concept		
Level 2	CTIIR15.3 Layout and cut stringers.	
Skill/		
Concept		

Indicator # CTIIR 16 Study the principles and standards of Basic Residential Electric and Plumbing applications

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR16.1 Understand and demonstrate basic residential electric and	
Skill/	plumbing applications.	
Concept		

Indicator # CTIIR 17 Student will participate in career exploration activities

Webb Level	Sub-indicator	Integrated Content
Level 2	CTIIR17.1 Research career opportunities in the Architecture and Construction	
Skill/	fields.	
Concept		

Drafting and Design I

Career Cluster	Architecture & Construction
Course Code	21102
Prerequisite(s)	Algebra I and Geometry Recommended
Credit	.5 - 1
Program of Study and	Drafting and Design I is an introductory course in the Architectural Drafting, Cabinetry, and
Sequence	Residential Construction Pathways
Student Organization	SkillsUSA
Coordinating Work-Based	Tours, guest speakers, job shadowing
Learning	
Industry Certifications	This course provides instruction toward attainment of ADDA Apprentice Drafting certification
Dual Credit or Dual	TBD
Enrollment	
Teacher Certification	Architecture & Construction Cluster Endorsement; Design & Pre-Construction Pathway
	Endorsement; Manufacturing Cluster Endorsement; STEM Cluster Endorsement; Engineering &
	Robotics Pathway Endorsement; Drafting Endorsement;
Resources	

Course Description:

People with careers in design and pre-construction create our future. They turn a concept into a set of plans whether for a component, a system, or a building. Their plans guide other construction or manufacturing professionals as they continue the building process. This course will expose students to the American Design Drafting Association (ADDA) Apprentice standards in both mechanical and architectural drafting. The desire for this course is for the students to receive industry based training at the basic level before taking either the Mechanical or Architectural drafting courses. It is highly recommended that students have taken Algebra I and Geometry before taking this course.

Program of Study Application: Drafting and Design I is an introductory course in the Architectural Drafting and Design/Pre-Construction Pathways. This course follows foundational CTE courses, and is designed to prepare individuals to participate successfully in pathway courses in the Design/Pre-Construction, Construction, or Maintenance/Operations pathways.

Course: Drafting and Design I

Course Standards

Indicator # DDI 1 Examine basic drafting terminology and equipment.

Webb Level	Sub-indicator	Integrated Content
One	DDI 1.1 Recognize basic drafting terms and abbreviations.	
Recognize		
Two	DDI 1.2 Differentiate basic and CAD drafting tools and their	
Differentiate	uses.	

Indicator # DDI 2 Apply basic math skills to design work.

Webb Level	Sub-indicator	Integrated Content
Two	DDI 2.1 Apply algebraic and trigonometric formulas used in drafting	1
Apply	and design.	
Two	DDI 2.2 Understand the various drawing scales used in drafting.	
Understand		

Indicator # DDI 3 Examine basic drafting fundamental and technical skills

Webb Level	Sub-indicator	Integrated Content
Three	DDI 3.1 Integrate symbols, lettering and Geometric shapes used on	
Integrate	technical drawings.	
One	DDI 3.2 Illustrate line types recommended by American National	
Illustrate	Standards Institute (ANSI).	
One	DDI 3.3 Define dimensioning styles and techniques on metric and	
Define	imperial drawings.	

Indicator # DDI 4 Apply drawing techniques to produce various technical plans.

Course: Drafting and Design I

Webb Level	Sub-indicator	Integrated Content
Four	DDI 4.1 Create orthographic projections	
Create		
Four	DDI 4.2 Create isometric and pictorial drawings.	
Create		

Indicator # DDI 5 Implement computer aided software into design work.

Webb Level	Sub-indicator	Integrated Content
One	DDI 5.1 Identify CAD skills and applications of technical design.	
Identify		
Two	DDI 5.2 Apply CAD defaults and preferences to set up a drawing.	
Apply		
Four	DDI 5.3 Generate drawings and projections using CAD software.	
Generate		

Indicator # DDI 6 Explore career-ready practices.

Webb Level	Sub-indicator	Integrated Content
One	DDI 6.1 Examine careers in architectural and mechanical	
Understand	drafting.	
Two	DDI 6.2 Compare career possibilities in the drafting industry.	
Compare

	Pathway Endorsement; Drafting Endorsement;	
Resources	None	

Course Description:

People with careers in design and pre-construction create our future. They turn a concept into a set of plans whether for a component, a system or a building. The plans guide other construction or manufacturing professionals as they continue the building process. These standards, combined with the knowledge and skills students master in the Drafting and Design I course, will provide students the basis to sit for the ADDA (American Drafting and Design Association) Architectural Apprentice certification. Details of the ADDA competencies addressed in each standard can be found at http://www.adda.org.

Program of Study Application

This is the fourth course in the suggested sequence of the Architectural & Construction career cluster. It is recommended that it is preceded by (1) Foundation Courses, (2) Introduction to Architecture and Construction, and (3) Drafting and Design I; and followed by (5) Capstone Experience.

Course Standards

Course: Drafting and Design II

Indicator # DDII 1	Understand architectural design fundamentals and history.
--------------------	---

Webb Level	Sub-indicator	Integrated Content
Level 1	DDII 1.1 Identify architectural products and styles.	
Recall		
Level 2	DDII 1.2 Interpret the fundamentals of framing plans.	
Skill/		
Concept		
Level 2	DDII 1.3 Identify building codes and governing bodies	
Skill/		
Concept		
Level 1	DDII 1.4 Identify residential building materials	
Recall		

Indicator # DDII 2 Understand drawing management, dimensioning, and notations.

Webb Level	Sub-indicator	Integrated Content
Level 2	DDII 2.1 Examine drawing identification and management	
Skill/	techniques used in architectural drafting.	
Concept		
Level 3	DDII 2.2 Illustrate proper dimensioning and notation practices	
Strategic	used in architectural drafting.	
Thinking		

Indicator # DDII 3 Develop a residential plot and foundation system plan.

Webb Level	Sub-indicator	Integrated Content

Skill/	construction industry.	
Concept		
Level 4	DDII 4.8 Generate final presentation drawings and three	
Extended Thinking	dimensional computer model.	

Finish Carpentry I

Career Cluster	Architecture and Construction
Course Code	17007
Prerequisite(s)	Introduction to Architecture and Construction
Credit	.5 – 1
Program of Study and	Cabinetry Sequence
Sequence	
Student Organization	SkillsUSA
Coordinating Work-Based	Work place tours, Guest speakers
Learning	
Industry Certifications	OSHA 10-Hour Safety Certification
Dual Credit or Dual	TBD
Enrollment	
Teacher Certification	Architecture & Construction Cluster Endorsement; Construction Pathway Endorsement; Building
	Trades Endorsement;
Resources	

Course Description:

This is course is designed to introduce the students to the basics of cabinetry. The course will stress safe and proper use of hand and power tools; safe shop practices and shop environment safety. Students will display a working knowledge of terms and techniques to design and build a wood working project.

Program of Study Application

Introduction to Architecture and Construction is recommended but not required

Finish Carpentry I

Finish Carpentry II

Course: Finish Carpentry

Capstone Experience

Course Standards

Indicator # FCI 1 Observe and apply rules and regulations to comply with personal and shop safety.

Webb Level	Sub-indicator	Integrated Content
Two	FCI 1.1 Apply hand/power tool and lab safety standards.	
Арріу		
One	FCI 1.2 Describe and wear appropriate personal protective equipment	
Describe	(PPE) when needed.	
One Indicate	FCI 1.3 Indicate a knowledge of government regulations regarding health and safety in the shop.	

Indicator # FCI 2 Explore the different career opportunities in the industry.

Webb Level	Sub-indicator	Integrated Content
Three	FCI 2.1 Investigate and examine career opportunities in cabinetry	
Investigate	industry.	
Two	FCI 2.2 Demonstrate an understanding of necessary job skills needed	
Demonstrate	in cabinetry careers.	

Indicator # FCI 3 Apply basic math principles used in the industry.

Webb Level	Sub-indicator	Integrated Content
Two	FCI 3.1 Demonstrate proper use of appropriate math skills	
Demonstrate		

Course: Finish Carpentry

Two	FCI 3.2 Demonstrate an understanding of the difference between	
Demonstrate	board feet and linear feet	
Two	FCI 3.3 Demonstrate proper measuring and layout skills	
Demonstrate		

Indicator # FCI 4 Identify various materials and apply project planning.

Webb Level	Sub-indicator	Integrated Content
One Identify	FCI 4.1 Identify wood species and engineered materials.	
Three Analyze	FCI 4.2 Analyze design elements of a project plan.	
Four Create Implement	FCI 4.3 Create and implement a bill of materials and cut list from a project drawing.	
One Identify	FCI 4.4 Identify various types of hardware, fasteners, and adhesives used in the cabinetry industry.	

Indicator # FCI 5 Recognize various cabinetry joinery and assembly techniques.

Webb Level	Sub-indicator	Integrated Content
Two	FCI 5.1 Demonstrate common joinery techniques	
Demonstrate		

Course: Finish Carpentry

Two	FCI 5.2 Demonstrate knowledge of industry concepts to assemble	
Demonstrate	projects	
Assemble		

Indicator # FCI 6 Recognize and apply surface preparation and finishing techniques.

Webb Level	Sub-indicator	Integrated Content
Two	FCI 6.1 Apply surface preparation techniques	
Apply		
Two	FCI 6.2 Apply finishing products	
Apply		

Finish Carpentry II

Career Cluster	Architecture and Construction	
Course Code	17005	
Prerequisite(s)	Cabinetry	
Credit	.5-1

Course Description:

This course prepares individuals to apply technical knowledge and skills to plan and estimate projects, as well as set up and operate industrial woodworking machinery. Students will use industrial machinery to design and fabricate casework (cabinetry) and architectural millwork. This course will cover safe use of hand and power tools and machinery used in the production of casework and millwork. A variety of projects will be designed and constructed. Students will apply proper finishing and explore proper installation techniques as part of this program.

Program of Study Application

- Foundation courses
- Intro to architecture and construction (Recommended not required)
- Finish Carpentry I (prerequisite)
- Finish Carpentry II

Course: Finish Carpentry II

• Capstone Experience

Course Standards

Indicator # FCII 1 Demonstrate proper rules and regulations to comply with personal and shop safety.

Webb Level	Sub-indicator	Integrated Content
One	FCII 1.1 Apply hand/power/industrial tool and lab safety practices.	
Apply		
Two	FCII 1.2 Determine and wear appropriate personal protective	
Determine	equipment (PPE)	
One	FCII 1.3 Comply with government regulations regarding health and	
Comply	safety in the shop.	

Indicator # FCII 2 Evaluate the career market that surrounds the carpentry industry.

Webb Level	Sub-indicator	Integrated Content
Three	2.1 Acquire residential, civil and commercial career	
Acquire	information and demonstrate knowledge of the career-planning	
	process	
Three	2.2 Identify individual career goals in the carpentry industry.	
Identify		
Three	2.3 Enhance the development of employment readiness skills	
Develop		

Indicator # FCII 3 Utilize advanced math skills, formulas, and principles used in cabinetry.

Webb Level Sub-indicator	Integrated Content
--------------------------	--------------------

Course: Finish Carpentry II

-		
Two	FCII 3.1 Apply geometric formulas to determine areas of various	
Apply	structures.	
Two	FCII 3.2 Apply appropriate formulas to determine	
Apply	percentages/decimals.	
Two	FCII 3.3 Apply appropriate formulas to determine ratios, fractions,	
Apply	and proportion measures.

Develop	a three-dimensional form from a two-dimensional drawing.	
Conceptualize		
One	FCII 3.6 Define the X,Y,Z coordinates involved in common Computer	
Define	numeric control (CNC) applications.	

Indicator # FCII 4 Identify various materials and evaluate the proper application in project planning.

Webb Level	Sub-indicator	Integrated Content
Three	FCII 4.1 Differentiate various cabinetry materials and their	
Differentiate	appropriate applications.	
Two	FCII 4.2 Identify the common grades of lumber and sheet goods.	
Identify		
Two	FCII 4.3 Describe and identify natural defects in woods	
Describe		
One	FCII 4.4 Utilize proper storage and handling techniques	
Utilize		
Four	FCII 4.5 Create a project plan, bill of materials, cut list and	
Develop	timeline.	

Indicator # FCII 5 Demonstrate advanced skills and techniques used in industry.

Course: Finish Carpentry II

Webb Level	Sub-indicator	Integrated Content
Two	FCII 5.1 Determine plumb, level, and square.	
Determine		
Two	FCII 5.2 Demonstrate proper techniques used in various sawing,	
Determine	shaping, carving, molding, and routing applications.	
Three	FCII 5.3 Apply various fabricating techniques in casework	
Apply	and millwork.	
Fabricate		
Three	FCII 5.4 Differentiate between different styles in casements	
Differentiate		

Course: Finish Carpentry II

One	FCII 5.5 Identify and create the basic wood and mechanical joints used	
Identify	in cabinetry.	

Indicator # FCII 6 Demonstrate the use of cabinet fasteners and hardware.

Webb Level	Sub-indicator	Integrated Content
Two Determine	FCII 6.1 Determine proper application and use of mechanical fasteners and adhesives.	
Two Analyze	FCII 6.2 Analyze different hardware and their applications.	

Indicator # FCII 7 Demonstrate proper assembly and finish preparation techniques.

Webb Level	Sub-indicator	Integrated Content
Two	FCII 7.1 Develop logical assembly process/procedure	
Develop		
Two	FCII 7.2 Demonstrate various ways to remove excess adhesive	
Demonstrate	Example:	
	 Sanding, chiseling, taping, etc. 	
Two	FCII 7.3 Apply surface preparation skills before finishing	
Apply	Examples:	
	 Select proper abrasives and sanding equipment 	
	• Fillers	

Notes:

Course: Finish Carpentry II

Indicator # FCII 8 Demonstrate the use of finishing materials and processes.

Webb Level	Sub-indicator	Integrated Content
One	FCII 8.1 Explain the purpose and applications of various types of	
Explain	finishes and finishing processes.	
Two	FCII 8.3 Utilize safe and approved methods for cleanup and disposal	
Apply	(OSHA, EPA, DENR)	

Construction Equipment I

Career Cluster	Architecture and Construction
Course Code	17990
Prerequisite(s)	Introduction to Architecture and Construction
Credit	.5 - 1
Program of Study and Sequence	Foundation Courses, Introduction to Architecture and Construction, Construction Trades I, Construction Trades II- Residential, Construction Equipment I, Capstone
Student Organization	SkillsUSA
Coordinating Work-Based Learning	This standard includes Workplace Tours, Service learning and Apprenticeship
Industry Certifications	None
Dual Credit or Dual Enrollment	TBD
Teacher Certification	Architecture & Construction Cluster Endorsement; Construction Pathway Endorsement; Mainte- nance/Operations Pathway; Construction Trades I Endorsement
Resources	

Course Description:

Construction Equipment I: Students will gain an understanding of safely operating the tools and equipment in the construction trades. Exploration of earth-moving and construction equipment within the context of OSHA and industrial operations standards. Emphasis should be placed on controlling equipment to perform specific operations per industry standards and on basic trouble-shooting and maintenance procedures.

Program of Study Application

Construction Equipment I is an intermediate pathway course in the Architecture & Construction career cluster. It can be found in both the Construction and Maintenance/Operations pathways. It is to be preceded by a cluster course and followed by Construction Equipment II and/or a capstone course.

	Onentation to the made	
Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEI 1.1 Explain the basic terminology, types, and uses of equipment	
Level 1: Recall	CEI 1.2 Identify career opportunities available to construction equip- ment operators and explain the purpose and objectives of an appren- tice training program	
Level 1: Recall	CEI 1.3 Explain the responsibilities and characteristics of a good opera- tor	
Level 2: Skill/Concept	CEI 1.4 Explain the importance of construction equipment safety	
Level 1: Recall	CEI 1.5 Describe preventive maintenance procedures	

Indicator #CEI 1 Orientation to the Trade

Indicator #CEI 2: Construction Equipment Safety

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEI 2.1 Explain the importance of safety when working with construction equipment	

Level 1: Recall	CEI 2.2 State the purpose of signs, tags, barricades, and lockout/tagout de- vices used on construction sites	
Level 1: Recall	CEI 2.3 Describe the long- and short-term health effects, first-aid measures, handling, and storage, and/or required personal protective equipment (PPE)	
Level 1: Recall	CEI 2.4 Identify safeguards used in a highway construction work zone	
Level 1: Recall	CEI 2.5 State the general guidelines for a safe operation, maintenance, and transportations of construction equipment	
Level 1: Recall	CEI 2.6 Explain the dangers of working around an excavation area with con- struction equipment	
Level 1: Recall	CEI 2.7 Describe the importance of Safety Data Sheets (SDS)	

Indicator # CEI 3: FORKLIFTS-Students understand and perform, where possible, lifting, transporting, and placement forklift operations with a focus on safety.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEI 3.1 Identify the components of forklifts	
Level 1: Recall	CEI 3.2 Explain the operations of various components	

Level 2: Skill/Concept	CEI 3.3 Describe preventive maintenance procedures	
Level 1: Recall	CEI 3.4 Describe startup and operating procedures for forklift	

Indicator #CEI 4: ON-ROAD DUMP TRUCKS-Students understand and perform, where possible, appropriate operations using On-Road Dump Trucks.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEI 4.1 Identify the various types of on-road dump trucks	
Level 1: Recall	CEI 4.2 Identify and describe instruments and specialized control systems in dump trucks	
Level 1: Recall	CEI 4.3 List the operator inspection and maintenance requirements	
Level 1: Recall	CEI 4.4 Explain safe driving practices for dump trucks	

Level 2: Skill/Concept	CEI 4.5 Perform basic operations using a dump truck	

Indicator #CEI 5: SKID STEER-Students understand and perform, where applicable, usage and proper functionality of skid steers.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEI 5.2 Describe the pre start inspection requirements for skid loader	
Level 1: Recall	CEI 5.3 Describe startup, shutdown, and operations procedures for a skid loader	

Indicator #CEI 6: INTERPRETING CIVIL DRAWINGS-Students read and interpret construction site drawings to perform operations.

Webb Level	Sub-indicator	Integrated Content
Level 2: Skill/Concept	CEI 6.2 Read and interpret drawings	
Level 1: Recall	CEI 6.3 Define common abbreviations	
Level 1: Recall	CEI 6.4 Describe how as-built drawings are prepared	

Indicator #CEI 7:-EQUIPMENT OPERATION-Students understand and perform, where applicable, operations on various pieces of heavy equipment to demonstrate proper startup, shut off, and maintenance procedures for each piece of machinery.

Webb Level	Sub-indicator		Integrated Content	

Course: Construction Equipment I

Level 1: Recall	CEI 7.2 Describe pre start inspection requirements for various pieces of ma- chinery
Level 1: Recall	CEI 7.3 List task related work activities
	6 Proposed 2020-2021

Construction Equipment II

Career Cluster	Architecture and Construction II
Course Code	17991
Prerequisite(s)	Introduction to Architecture and Construction, Construction Equipment I
Credit	.5 - 1
Program of Study and Sequence	Foundation Courses, Introduction to Architecture and Construction, Construction Equipment I, Cap- stone
Student Organization	SkillsUSA
Coordinating Work-Based Learning	This standard includes Workplace Tours, Service learning and Apprenticeship
Industry Certifications	None
Dual Credit or Dual Enrollment	TBD
Teacher Certification	Architecture & Construction Cluster Endorsement; Construction Pathway Endorsement; Mainte- nance/Operations Pathway; Construction Trades II Endorsement;
Resources	

Course Description:

Students will gain an advanced understanding of safely operating the tools and equipment in the construction trades. Operation of earth-moving and construction equipment within the context of OSHA and industrial operations standards. Emphasis should be placed on controlling equipment to perform specific operations per industry standards and on basic troubleshooting and maintenance procedures.

Program of Study Application

Construction Equipment II is an advanced pathway course in the Architecture & Construction career cluster. It can be found in both the Construction and Maintenance/Operations pathways. It is to be preceded by a cluster course, Construction Equipment I and followed by a capstone course.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEII 1.1 Explain the basic terminology, types, and uses of equipment	
Level 1: Recall	CEII 1.2 Identify career opportunities available to construction equip- ment operators and explain the purpose and objectives of an appren- tice training program	
Level 1: Recall	CEII 1.3 Explain the responsibilities and characteristics of a good opera- tor	
Level 2: Skill/Concept	CEII 1.4 Explain the importance of construction equipment safety	
Level 1: Recall	CEII 1.5 Describe preventive maintenance procedures	

Indicator #CEII 1: Orientation to the Trade

Indicator #CEI 2: Construction Equipment Safety

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEI 2.1 Explain the importance of safety when working with construction equipment	

Level 1: Recall	CEI 2.2 State the purpose of signs, tags, barricades, and lockout/tagout de- vices used on construction sites	
Level 1: Recall	CEI 2.3 Describe the long- and short-term health effects, first-aid measures, handling, and storage, and/or required personal protective equipment (PPE)	
Level 1: Recall	CEI 2.4 Identify safeguards used in a highway construction work zone	
Level 1: Recall	CEI 2.5 State the general guidelines for a safe operation, maintenance, and transportations of construction equipment	
Level 1: Recall	CEI 2.6 Explain the dangers of working around an excavation area with con- struction equipment	
Level 1: Recall	CEI 2.7 Describe the importance of Safety Data Sheets (SDS)	

Indicator # CEI 3: FORKLIFTS-Students understand and perform, where possible, lifting, transporting, and placement forklift operations with a focus on safety.

Webb Level	Sub-indicator	Integrated Content
Level 2: Skill/Concept	CEII 3.1 Demonstrate the operations of various components	
Level 1: Recall	CEII 3.2 Perform preventive maintenance procedures and explain the opera- tions of various components	
Level 2: Skill/Concept	CEII 3.3 Demonstrate proper startup and operating procedures for forklift	

Indicator #CEI 4: ON-ROAD DUMP TRUCKS-Students understand and perform, where possible, appropriate operations using On-Road Dump Trucks.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEII 4.1 Review the various types of on-road dump trucks	
Level 1: Recall	CEII 4.2 Review the requirements of a CDL for on road dump truck operation	
Level 1: Recall	CEII 4.3 Understand the use of instruments and specialized control systems in dump trucks	
Level 1: Recall	CEII 4.4 List the operator inspection and maintenance requirements	
Level 2: Skill/Concept	CEII 4.5 Demonstrate safe driving practices for dump trucks	
Level 2: Skill/Concept	CEII 4.6 Perform basic operations using a dump truck	

Indicator #CEI 5: SKID STEER-Students understand and perform, where applicable, usage and proper functionality of skid steers.

Webb Level	Sub-indicator	Integrated Content
Level 2: Skill/Concept	CEII 5.1 Operate a skid loader safely	
Level 1: Recall	CEII 5.2 Demonstrate the pre start inspection requirements for skid loader	
Level 2: Skill/Concept	CEII 5.3 Demonstrate startup, shutdown, and operations procedures for a skid loader	

Course: Construction Equipment II

Indicator #CEII 6: EXCAVATION DIMENSIONS-Students perform calculations to carry out excavation operations.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEII 6.1 Explain and demonstrate the correct use of formulas for site layout	
Level 1: Recall	CEII 6.2 Understand the proper sequence of operations in a formula	
Level 1: Recall	CEII 6.3 Demonstrate understanding of different types of angles	
Level 2: Skill/Concept	CEII 6.4 Demonstrate how to calculate/estimate area and volume	

Indicator #CEII 7: INTERPRETING CIVIL DRAWINGS-Students read and interpret construction site drawings to perform operations.

Webb Level	Sub-indicator	Integrated Content
Level 2: Skill/Concept	CEII 7.1 Analyze types of drawings and prints used in equipment operations	
Level 2: Skill/Concept	CEII 7.2 Demonstrate the ability to read and interpret drawings	
Level 1: Recall	CEII 7.3 Define common abbreviations	
Level 1: Recall	CEII 7.4 Explain the purpose of the plan specifications for projects	
Level 1: Recall	CEII 7.5 Describe how as-built drawings are prepared	

Indicator #CEII 8: SITE WORK-Students perform appropriate on-site heavy equipment operations including interpreting grade stakes and controlling surface and ground and surface water at a worksite.

Webb Level	Sub-indicator	Integrated Content
Level 1: Reca	II CEII 8.1 Explain the purpose of site safety	
Level 1: Reca	II CEII 8.2 Understand the different types of sites and conditions (e.g. building site, highway site, etc.) and how they differ	

Indicator #CEII 6: EXCAVATION DIMENSIONS-Students perform calculations to carry out excavation operations.

Webb Level	Sub-indicator	Integrated Content
Level 1: Recall	CEII 9.1 Demonstrate the functions of various components of equipment	
Level 2: Skill/Concept	CEII 9.2 Demonstrate pre-start inspection requirements for various pieces of machinery	
Level 2: Skill/Concept	CEII 9.3 Demonstrate task-related work activities
