# State Proposals for Pathway/Substantial Equivalence/Practice Privilege <u>ARKANSAS</u>

Proposing a rule change to allow for an additional pathway to licensure. The additional pathway will consist of a Bachelor's degree including 30 upper level accounting hours, 30 business hours along with 2 years of notarized experience from the applicant's direct supervisor and a CPA. Additional language changes will be made to substantial equivalency and experience requirements. This process can take anywhere from 9 - 15 months

#### CALIFORNIA One-Pager to explain bill

<u>AB 1175</u> Existing law establishes the California Board of Accountancy in the Department of Consumer Affairs to license and regulate certified public accountants and the practice of public accountancy. Existing law makes it a crime for a person to engage in the practice of public accountancy without a valid permit issued by the board or pursuant to a practice privilege.

Existing law establishes education, experiential, examination, and other qualifications for licensure as a certified public accountant and requires an applicant to provide documentation that the applicant completed specified units in prescribed courses. Existing law requires the board to admit an applicant to the certified public accountant examination before the applicant completes the education requirements if the applicant is enrolled in a degree-granting university, college, or other institution of learning and is within 180 days of completing prescribed education requirements. Existing law requires the board to adopt guidelines for accounting study to be included as part of the educational requirements for licensure.

This bill would, operative on July 1, 2026, enact an alternative, revised qualifications and requirements for license, including a requirement to have completed an accounting concentration of courses from a board-recognized United States' institutions of higher education, instead of evidence of completion of specified units in prescribed courses for the education qualifications, as described above. The bill would make those revised qualifications and requirements an alternative to the above-described existing law provisions until January 1, 2029, at which time the bill would repeal those existing law provisions. The bill would require the board to adopt emergency regulations to implement the bill's provisions.

Existing law authorizes the board to issue a certified public accountant license to an applicant who is the holder of a certified public accountant license issued under the laws of any state if the board determines the standards are substantially equivalent to the standards established in this state.

This bill would instead authorize the board to issue a certified public accountant license to an applicant who holds a license from another state with comparable licensure requirements, as defined.

Existing law authorizes an individual whose principal place of business is not in this state and who has a license to practice public accountancy from another state to practice in this state under a practice privilege without obtaining a license from the board if the individual, among other things, satisfies one of specified requirements, including that the individual has continually practiced public accountancy as a certified public accountant under a licensed issued by another state for at least 4 of the last 10 years.

This bill would delete the provision requiring the individual satisfy one of those specified requirements to practice under a practice privilege.

Existing law requires individuals licensed in another state as a certified public accountant to file a specified notification form with the board and pay a fee as a condition of exercising a practice privilege if the board determines that allowing the individual to practice would violate the board's duty to protect the public, and specifies factors the board is required to consider in making that determination.

This bill would require the board, in making that determination, to also consider whether the other state has comparable licensure requirements. The bill would require an individual who has their principal place of business in a state that the board determines does not have comparable licensure requirements, to indicate on the notification form whether they have met one of 2 alternative sets of requirements. The first would be having continually practiced public accountancy as a certified public accountant under a license issued by any state for at last 4 of the last 10 years. The other set of requirements would be having passed the Uniform CPA Examination and completed education that included a baccalaureate degree or higher with an accounting concentration and at least one year of general accounting experience.

Existing law authorizes a licensee to sign reports on attest engagements if, among other requirements, the licensee completes 500 hours of experience satisfactory to the board in attest services.

This bill, among other changes to those requirements, would authorize the board, by regulation, to require the completion of specified job tasks associated with performing attest services.

The bill would make other conforming, technical, and nonsubstantive changes.

#### **MINNESOTA**

<u>MN HF 1749</u> – This bill specifies that a certified public accountant (CPA) must have completed a recognized educational program of 150 semester hours, or at least 120 semester hours with two years of experience or completed 120 semester hours with one year of experience and 120 hours of professional education, accredited by the National Association of State Boards of Accountancy or board-defined provider.

Exposure Draft Issued March 4, 2025

# Uniform Accountancy Act Eighth Edition - January 2018

Comments are due through this form by May 3, 2025.

# Joint AICPA/NASBA UAA Committee Exposure

Amendments to UAA Section 5: Education requirements to sit for the CPA Exam and education requirements for a certificate; UAA Section 23: Practice privileges for individual mobility.

Published jointly by the

American Institute of Certified Public Accountants 1345 6th Avenue 27th Floor, New York, NY 10105

March 4, 2025

Dear Interested Parties,

In September 2024, the American Institute of CPAs (AICPA) and the National Association of State Boards of Accountancy (NASBA) released proposed changes to the Uniform Accountancy Act (UAA), the model law governing the CPA profession. Following the conclusion of the comment period on December 30, 2024, the organizations received 194 stakeholder submissions, comprising:

- 124 comments from individuals (including educators, students/candidates, and other stakeholders)
- 7 comments from CPA firms
- 39 comments from state CPA societies
- 24 comments from state boards of accountancy

Two key themes emerged from these submissions: a strong desire across the profession for an additional pathway to CPA licensure, and broad support for the adoption of "individual-based mobility." In response, the Boards of Directors of both the AICPA and NASBA have approved, for further exposure, revisions to the UAA that will:

- Specify the educational requirements to sit for the Uniform CPA Examination
- Define the requirements for an additional CPA licensure pathway
- Transition from mobility-based on state substantial equivalency to a model predicated on individual licensing criteria
- Encourage the adoption of mobility through an individual practice privilege, which is contingent upon meeting established licensing requirements. Additionally, the revised language provides a safe harbor for CPAs licensed under previously approved pathways.

The exposure draft establishes three pathways to CPA licensure:

- A post-baccalaureate degree with an accounting concentration, one year of experience, and the CPA Exam
- A baccalaureate degree with an accounting concentration supplemented by an additional 30 semester credit hours, one year of experience, and the CPA Exam
- A baccalaureate degree with an accounting concentration, two years of experience, and the CPA Exam

Moreover, the draft permits candidates holding a baccalaureate degree with an accounting concentration to sit for the Uniform CPA Examination, thereby broadening access to licensure.

We believe that these revisions will strengthen the profession by maintaining a strong pipeline of accounting talent while maintaining the system of cross-border practice currently enjoyed by CPAs. We trust that the revised language, which includes provisions to facilitate individual practice privileges and a safe harbor for legacy licensees, addresses the concerns raised during the 2024 comment period.

The AICPA, NASBA, and the Joint UAA Committee welcome your comments on this proposal.
